# Christopher Nguyen

760-675-2389 | chrisn@ucsd.edu | linkedin.com/in/ccnguyen106 | github.com/ccnguyen106

## Education

**University of California, San Diego** La Jolla, CA
*Bachelor of Science in Data Science, Minor in Mathematics* *Expected June 2029*

- **Relevant Coursework**:
  - **Core CS & Data**: Data Structures, Principles of Data Science.
  - **Machine Learning**: Theoretical Foundations of Data Science.
  - **Mathematics**: Calculus-Based Probability, Statistics, Multivariable Calculus, Vector Calculus, Differential Equations, Linear Algebra.

**Cathedral Catholic High School** Del Mar, CA
*Graduated with Engineering Distinction* *Aug. 2021 – June 2025*

- **Relevant Coursework**:
  - **CS**: AP Computer Science A, AP Computer Science Principles.
  - **Engineering**: Capstone Project, Engineering Design.

## Experience

**MiraCosta and Grossmont** Sep. 2024 – July 2025
*Community Colleges* *San Diego, CA*

- Multivariable Calculus

**Ride Operator** June 2023 – August 2023
*Legoland California* *Carlsbad, CA*

- Monitored ride operations and identified irregularities to maintain smooth, safe, and efficient system performance
- Managed guest flow and adjusted dispatch timing to improve throughput during high-volume periods.

## Projects

**Taylor Swift Songs Analysis** | *Python, BPD, Matplotlib* Oct. 2025 – Nov. 2025

- Analyzed lyrical themes, sentiment patterns, and album-level trends using Python to uncover shifts in tone and storytelling across eras.
- Conducted exploratory data analysis on song attributes (sentiment, word frequency, release patterns) to identify stylistic changes over time.
- Built visualizations to compare albums and highlight patterns in emotion, vocabulary, and narrative structure.

**FRIENDS Episode Analysis** | *Python, BPD, Matplotlib* Nov. 2025 – Dec. 2025

- Examined episode-level data (dialogue, screen time, character interactions) to identify patterns in humor, pacing, and character dynamics.
- Performed exploratory analysis on episode metadata to uncover trends in ratings, plot structure, and character presence.
- Created visualizations to compare seasons and highlight shifts in storytelling and ensemble balance.

## Technical Skills

**Languages**: Python, LaTeX
**Developer Tools**: Git, PyCharm, IntelliJ
**Libraries**: pandas, NumPy, Matplotlib

## Personal Interests

**Hobbies**: Gym, Volleyball, Plants, Movies, Surfing, Snowboarding, Camping
