## SUMMARY

- Canadian citizen; Data Science graduate student with 2+ years of experience in data engineering, data science/analytics, and AI engineering and research, seeking on-campus jobs and 2026 summer internships.
- Winner of HackASU 2025 by Anthropic - Co-Author of '[unbored](#)': a Python package to generate onboarding knowledge bases from GitHub repos

## EDUCATION

### M.S. Data Science

Arizona State University, Tempe, AZ

May 2027

3.89 / 4.00 GPA

Relevant Coursework: Data Processing at Scale, Data Visualization, Data Mining, Statistical Machine Learning

### B.S. Computer Science

Dayananda Sagar University, India

May 2023

8.03 / 10 GPA

## TECHNICAL SKILLS AND CERTIFICATIONS

**Programming Languages:** Python, C/C++, HTML, JS, CSS

**Tools, Databases:** SQL, Snowflake, Docker, Postman, Power BI, Excel, Crew AI, Ray, CometML

## PROFESSIONAL EXPERIENCE

### Apex CoVantage: Prompt Engineering Consultant

June 2025 – Aug 2025

- Managed and trained a team of 30+ domain experts to create a benchmark dataset for a leading AI-research lab.
- Evaluated 200+ prompt and rubric sets to review model expertise in different domains

### SupportVectors AI Labs: Data Scientist and Teaching Assistant

Sept 2023 – June 2025

- Monitored and analysed projected revenue and expenditure calculation methods of hospices that have admissions under Medicare insurance.
- Implemented and managed an ETL pipeline using **Python** with **Snowflake** to generate processed data of hospices under Medicare insurance from a star schema structure using database querying with **SQL**.
- Developed **Python** scripts/projects as a **Teaching Assistant** to demonstrate and teach advanced AI courses such as 'MLOps', 'AI Agents', 'Fine-tuning Techniques' to students of SupportVectors' online interactive courses.

### Machstatz: Backend Intern

Aug 2022 – Oct 2022

- Tested Hashicorp automation tools by implementing on Flask microservices.

## PROJECTS

### Building Accessible Video Games For Children With An Autism Spectrum Disorder, *Research Project*

Spring 2023

- [Published](#) on IEEE Explore via ICECCT 2023 Conference – Developed an accessible and inclusive video game for children with ASD using **C# with Unity**, selected among top 28 computer science projects at Dayananda Sagar University Expo 2k23

### Mental Health Chatbot, *Class Project*

Spring 2022

- Implemented a web-based chatbot application for mental health using **Python**, **Flask**, **NLTK**, **Tensorflow** that aids people with suggestions and professional resources during crisis times; achieved 88% accuracy through effective model tuning.

## ACTIVITIES

### AI Scholars – ASU, Tempe, AZ

Sept 2025 – present

- Member – Contributing in AI development, research and skill-building through innovative projects.

### International Students and Scholars Center – ASU, Tempe, AZ

Sept 2025 – present

- Volunteer – Assisting in coordination and managerial work during cultural events by ISSC at ASU.

### Ground Animal Welfare – Bangalore, India

Aug 2021 – Aug 2025

- [Lead coordinator](#) – 10+ animal welfare-based student outreach events, 250+ vaccination drives, social media curation.

### Student Mentor/Grader – Dayananda Sagar University, India

Aug 2021 – Dec 2021

- Student mentor and grader for 100+ peers in the Special Topics course at DSU - "Fundamentals of C programming"
