## EDUCATION

### University of California, San Diego

San Diego, CA

*Bachelor of Science in Data Science, Minor in Business Analytics*

*Graduating June 2027*

- **Coursework:** Programming and Problem Solving, Data Structures and Algorithms, Product Marketing, Business Analytics, Marketing and Data Analytics, Economics, Accounting, Supply Chain Management

## EXPERIENCE

### Technical Product Management Intern

Jun 2025 – Oct 2025

*Life Stages*

*Remote*

- Launched 3 new product features, driving end to end execution from defining requirements to deployment
- Partnered with engineering and design teams, reducing development time by 15% via optimized Jira workflows
- Synthesized 100+ customer responses and market research to identify pain points and define the product priorities

### Data Analyst Intern

Mar 2025 – Jun 2025

*Beats by Dre*

*Remote*

- Drove exploratory data analysis on 5,000+ customer reviews that led to a 15% reduction in marketing inefficiencies
- Analyzed sales/ demographic data across 4 projects, uncovering performance patterns that boosted ROI by 10%
- Created 10+ Excel reports to translate technical findings into actionable insights for cross-functional stakeholders

### Technical Project Manager

Apr 2025 – Jun 2025

*AI Student Collective*

*Davis, CA*

- Led 6-week Agile sprint program to develop a voice-based emotion classification model in Python
- Mentored a team of 5 students through technical coding challenges and ensuring timely delivery of the project
- Conducted 10+ instructional sessions to enhance technical fluency and implement an end-to-end project roadmap
- Delivered weekly project updates to board members and translated feedback into 30+ actionable tasks for mentees

### Product Management Intern

Apr 2025 - Jun 2025

*Product Space*

*Davis, CA*

- Implemented an 8 week product roadmap, defining priorities, technical requirements, and producing deliverables
- Conducted 20+ user interviews and usability tests to refine documentation and optimize technical features
- Collaborated with cross-functional teams to balance technical feasibility and UX, boosting feature usability by 35%

### AI/ ML Engineering Intern

Jun 2024 – Aug 2024

*Droisys Inc*

*Las Vegas, NV*

- Developed a panoramic image stitching tool using Python and OpenCV, applying computer vision techniques to improve processing efficiency by 25% and deliver high-quality output through seamless imaging
- Validated CRM features by conducting 50+ user interaction tests and analyzing sales metrics
- Leveraged qualitative insights and usage metrics to improve UI/UX and drive a 20% increase in feature satisfaction
- Presented AI/ML solutions to stakeholders, translating technical outputs into tangible business value

## PROJECTS

### Moove | Figma

Apr 2025 – Jun 2025

- Designed a housing platform that streamlines the off-campus housing search for over 85% of UC Davis students
- Includes student-centric filters, Roomie Hub, verified listings, student reviews, in-app messaging, study score, etc

## SKILLS

**Languages/ Tools:** Python, SQL, Numpy, Pandas, Tableau, R, C/C++, JavaScript, HTML/CSS, MERN stack, Git, VS Code, Excel, Microsoft Office Suite, Jira, Figma, Kanban, Canva, Adobe Creative Cloud, Cursor

**Frameworks/Technologies:** Agile, Data-Driven Decision Making, Cross-Functional Collaboration, User/ Market Research, Roadmapping, Usability Testing, Go-To-Market Strategy, Feature Prioritization, Customer Journey Mapping, A/B Testing, KPI Tracking, Competitive Analysis, Stakeholder Management, Product Strategy and Analytics
