Availability: May 2026 - October 2026

EDUCATION

University of Washington , Candidate for BS in Computer Science and Applied Mathematics. ● Relevant Coursework: <i>Scientific Computing</i>, Foundations of Computing I/II, Differential Equations, Linear Algebra, <i>Data Structures and Parallelism</i>, The Hardware/Software Interface, <i>Data Management</i>, Software Tools, <i>System's Programming</i>, <i>Continuous Mathematical Modelling</i>, <i>Communications & Networks</i>, <i>Computer Graphics</i>, <i>Neural Data</i> ● Honors: Dean's List, GPA: 3.6/4.0	09/2023 – 05/2027
Central Washington University , Dual Enrollment Student ● GPA: 3.95/4.0	09/2021 – 06/2023

SKILLS

Languages: Python, MATLAB, Java, C#, C, C++, JavaScript, SQL, Linux, HTML, CSS,
Tools: Unity, Unreal Engine, Maya, Blender, VS Code, Spyder, IntelliJ, Figma, Audacity

WORK EXPERIENCE

Software Engineer Intern , Ibex - Remote ● Built an AI-driven Agent to Agent handover to help customer support agents transcribe speech to text and receive real-time support. Designed the front-end UI with HTML and back-end VSCode extensions to streamline developer interaction on WeatherAPI Agent.	06/2025 – 08/2025
Summer Camp Instructor , Pro Club - Bellevue, WA	07/2024 – 09/2024
Instructor , Code Ninjas - Sammamish, WA ● Facilitated coding skill development for middle and elementary school students.	12/2021 – 09/2023

PROJECTS

Wearable Devices & Computer Vision Course , Harvard University ● Research and analysis in the field of wearable devices and computer vision learning sensors, signal processing, data analytics, etc. ● Tools Used: Figma, VR headset, Audacity (filtering)	07/2023 – 09/2023
Game and Interactive Media Design - New York University ● Certified AR/VR Design using Unity ● Tools Used: Unity, Maya, Audacity	11/2021 – 02/2022
Polygence Research ● Conducted a research study with a Polygence mentor on "the impact of 3D characters design choices on people's emotions" ● Tools Used: Maya, Blender, Figma (design)	09/2021 – 01/2022
