My Resume - Ayse Sule Ekiz

Updated automatically every 5 minutes

North American University — B.S. Computer Science |
GPA: **3.95** | *Aug 2024 – May 2028*

Relevant Coursework: Human-Centered Design, SWE, Data Structures, Algorithms, Statistics, Databases, UI Systems

Honors & Leadership: President's Honor Roll; President, ACM-Women; President, Design Club; Vice President, Art Club

Robert College — High School | GPA: **3.85** |
Aug 2018 – May 2023

Leadership: President, Web Development Club; President, Graphic Design Club; VP, Ceramics Club

EXPERIENCE

ForgeMind — Software Engineering Intern
Feb 2025 – Jul 2025

- Partnered with product managers and designers to identify user friction points through behavioral analysis and feedback loops.
- Analyzed user behavior data to identify monetization and retention opportunities, informing product roadmap decisions.
- Built Python analytics pipelines and dashboards to surface KPIs for product and leadership stakeholders.
- Rapidly prototyped feature concepts and evaluated usability-impact trade-offs prior to engineering investment.
- Collaborated with product, design, and engineering teams to deliver data-driven product improvements under tight timelines.

North American University — IT & Design Associate
Sep 2024 –

Present

- Led end-to-end product design for campus platforms, from user research and journey mapping to production UI.
- Built design systems and reusable components, improving consistency, accessibility, and developer efficiency.
- Conducted usability testing and translated findings into product requirements adopted by administrators.
- Automated reporting and analytics workflows in Python, reducing manual work by 60% and enabling data-driven decisions.

Koç University — AI Research Intern*Jun 2022 – May**2023*

- Designed interaction flows and visual explanations for a 2D-to-3D AI system used in research studies and demos.
 - Translated complex ML concepts into intuitive interfaces for non-technical users and stakeholders.
 - Built Python prototyping pipelines enabling rapid experimentation and evaluation cycles.
-

PROJECTS**Rice Datathon — OpenStaxAlign (2nd Place)**

- Built ML models and analytics views to map textbook content to educational standards.
- Designed and queried a MongoDB Atlas database to store structured curriculum and model outputs.
- Designed dashboards and storytelling flows, translating model results into product and curriculum insights.
- Led rapid prototyping and experimentation cycles during 48-hour Rice Datathon (2nd Place).

Campus Services Revenue Dashboard — Product Design Case Study

- Led product discovery for billing and usage analytics platform through stakeholder interviews and workflow analysis.
- Designed and shipped a responsive SQL/JavaScript dashboard tracking demand and revenue trends.
- Authored product specs and technical documentation supporting engineering implementation.

North American University Portal — UX Redesign & Optimization System

- Conducted funnel and cohort analysis to identify usability gaps across a campus platform.
 - Designed and implemented UI improvements in JavaScript/CSS to improve navigation and task completion.
 - Delivered product recommendations guiding platform roadmap decisions.
-

SKILLS

Python, Java, SQL, JavaScript, MongoDB, PostgreSQL, ETL pipelines, REST APIs, data visualization, data analysis, KPI dashboards, product strategy, product requirements, user research, usability testing, technical communication, UX/UI design, interaction design, design systems, Figma, prototyping, design-to-code workflows, Git/GitHub, Agile/Scrum, machine learning fundamentals, Adobe Creative Suite, Clip Studio Paint.

LEADERSHIP

President, ACM-Women: Led workshops on data science, CS fundamentals, and applied AI. Mentored 50+ students in technical skill development and confidence-building. Organized hackathon participation and outreach events.

Girls Who Code, Student Ambassador: Delivered Python workshops and guided students through hands-on data-driven projects.

President, NAU Design Club: Led instruction on design principles and Adobe Creative Suite tools. Mentored 20+ members and coordinated campus creative events. Emphasized visual communication and audience-focused storytelling.
