EDUCATION

UNIVERSITY OF CALIFORNIA - SAN DIEGO

Graduating Spring 2027

Bachelor of Science in Mathematics and Economics

Minor in Data Science

Relevant Coursework: Econometrics, Python, Statistical Inference, Data Structures & Algorithms, Simulation & Modeling, Linear Algebra.

Technical Skills

PROGRAMMING: Python, Java

ANALYSIS & MODELING: Data Cleaning & Transformation, Data Structures & Algorithmic Problem Solving

STATISTICAL & ECONOMETRIC ANALYSIS: Econometrics; Regression Analysis; Statistical Inference

PROJECTS

STATISTICAL ANALYSIS OF TELEVISION SERIES PERFORMANCE

- Determined trends in viewer engagement by using Python to analyze large episodic datasets and identify patterns in seasonal and episode-level ratings.
- Transformed raw data of ratings into visual summaries that highlighted performance and variation across seasons and episodes

DATA ANALYSIS OF MUSIC PERFORMANCE METRICS

- Cleaned and analyzed music popularity datasets in Python to evaluate changes in performance across albums and time period
- Generated visual insights that revealed trends in listener engagement and release timing

PRICING & PROFITABILITY ANALYSIS IN REAL ESTATE

- Evaluated local market pricing and cost structures to assess the profitability of a residential resale opportunity
- Compared comparable listings and transaction outcomes to validate investment assumptions and support decision-making

WORK EXPERIENCE

LIBRARY ASSISTANT

Coachella, CA

Event Organizer and Tutor

Aug 2022 – Sep 2023

- Improved organization and attendance flow by organizing and supporting community and educational events.
- Gave students one-on-one academic support while modifying explanations to accommodate various learning preferences.

CHIPOTLE MEXICAN GRILL

San Diego, CA

Crew Member/ Cook
