

Cecilia (Zifei) Ye

San Diego, CA

Profile

Mathematics–Computer Science student at the University of California San Diego interested in artificial intelligence, data science, and computational problem solving. Experienced in Python-based data analysis and statistical modeling with economic datasets.

Education

University of California, San Diego

Bachelor of Science in Mathematics–Computer Science

GPA: 3.85

San Diego, CA

Sept. 2025 – June 2029

Coursework

MATH 20 series: Calculus (A)

MATH 18: Linear Algebra (A)

CSE 8A: Python (A)

COGS 14A: Introduction to Experimentation (A)

COGS 13: Field Study (A)

Experience

Student Researcher

2024

Path Academic

- Conducted macroeconomic data analysis on the project “*How the Economy of the U.S. and Other Countries Work*” under the supervision of a UC Berkeley professor.
- Collected and processed U.S. and international economic datasets using Python and Excel.
- Applied statistical analysis to investigate macroeconomic factors driving the depreciation of the Japanese yen.
- Produced visualizations and comparative analyses to identify international economic trends.
- Authored a research paper examining yen depreciation within a global macroeconomic framework.

Data & Market Analysis Intern

2024

Lu Yu Viewing Group

- Processed and analyzed audience feedback and interview datasets using Python and Excel.
- Applied statistical analysis to identify engagement patterns and optimize live audience selection.
- Generated data visualizations and reports to support marketing and social media strategy.

Technical Skills

Programming: Python, Java, C/C++, Matlab

Data Analysis: Statistical analysis, data visualization, dataset processing

Mathematics: Linear algebra, calculus, probability

Tools: Excel, Github, LaTeX, pandas, Numpy

Awards and Honors

Triton Scholar Award

2025

2nd Place, “Huawei Cup” Technology Festival (China)

2023
