EDUCATION

University of California, San Diego

Bachelor of Science in Computer Science

– Current GPA: 3.854

San Diego, CA

Expecting Graduation June 2028

RESEARCH EXPERIENCE

Dual-LLM Framework for Predictive Oncology Platforms

2025 – Present

Ideker Lab — UC San Diego

- Designed a dual-LLM architecture to translate natural language queries into executable benchmarking workflows for predictive oncology platforms
- Developed an LLM-based interpretability layer to convert raw numerical model outputs into clinician-oriented, actionable insights
- Proposed evaluation metrics covering correctness, reproducibility, consistency, and usability across technical and non-technical users

EXPERIENCE

Daedalus Rocket Team, UC San Diego

2023 – 2025

Team Member — Rocket Propulsion Lab

- Contributed to propulsion system design, simulation, and testing for high-powered student rockets
- Collaborated with a multidisciplinary engineering team to improve structural durability under high-stress flight conditions
- Applied systems engineering principles to iterative testing and performance optimization

IARA (Intelligent Assistant for Radiology Analysis)

2022 – 2023

AI and Healthcare Systems Project — ORT Argentina

- Implemented YOLOv5 for radiological object detection and Transformer-based models for medical image classification
- Contributed to a web-based diagnostic tool used by medical professionals for tuberculosis detection
- Project featured in a national news interview highlighting its clinical impact

World ORT Research Program

2023

Field Research — Panama Ecology Study

- Conducted ecological field research focused on biodiversity and species interaction analysis
- Led data collection and analysis of native bird populations and presented findings to the World ORT Network

SKILLS

Languages Spoken: English (Fluent), Spanish (Native), Chinese (Native) **Languages:** Python, Java, C++, JavaScript, SQL

Machine Learning & AI: TensorFlow, YOLOv5, Transformer Models

Systems & Web: Node.js, REST APIs

Tools: Git, JDK, phpMyAdmin
