SUMMARY

Passionate student majoring in Artificial Intelligence (AI) at the University of California, San Diego (UCSD), with a strong foundation in AI, Computer Science and a drive for innovation. Developed skills in Python, Java, C++, SQL, and core algorithms and data structures through rigorous programs. Currently seeking an internship or research opportunity during Summer 2026, particularly in Software Engineering, AI/ML, Data Science, DevOps, or related areas.

SKILLS

- **Languages:** Python, C++, Java, SQL, etc.
- **Machine Learning:** Model development, training, and evaluation; key concepts and algorithms
- **Tools & Practices:** DevOps, Git, Docker, AWS, etc.

EDUCATION

Artificial Intelligence, B.S., University of California, San Diego.	(San Diego, CA)	09/2025 - 06/2029
Sage Creek High School.	(San Diego, CA)	08/2021 - 06/2025

RELEVANT COURSEWORK

CSE 11 (Accel. Intro to Programming), CSE 12 (Basic Data Structures and Object-Oriented Design), CSE 21 (Math/Algorithm & Systems Analysis), CSE 25 (Introduction to AI), CSE 29 (Systems Programming and Software Tools), CSE 30 (Computer Organization), MATH 20C (Calculus and Analytic Geometry for Science and Engineering), CS 150 (Intro to C++ programming), CS 151 (Advanced C++ Programming), CS 111 (Intro to Java Programming), MATH 226 (Discrete Mathematics).

EXPERIENCE

Basta & Google Software Engineering Mentee, BASTA, 03/2026-06/2026

- Selected as one of 250 students from 1500 applicants for a 10 week mentorship with a Google Software Engineer focused on improving data structures and algorithms, and technical interviews.
- Work with a professional engineer to solve coding challenges and strengthen coding skills using practical resources focused on System Design, AI Systems, and Data Structures & Algorithms.

Summer Internship Prep Program (SIPP), Jacobs School of Engineering, UC San Diego. 07/2025 – 08/2025

- Gained hands-on experience in Python programming and machine learning techniques.
- Worked with microcontrollers, sensors, and actuators for hardware-based projects.
- Learned computer-aided design (CAD), PCB design, and laser cutting techniques.

TEACHING EXPERIENCE

Leader & Instructor, Ada Class and AI Program, [San Diego Math Circle](#) (SDMC) 10/2021 - 03/2025

SDMC, hosted by the University of California, San Diego (UCSD), unites students with a passion for math & computer science for exceptional educational needs. The SDMC Ada class and AI program teaches computational thinking, core principles, programming, data structures, algorithms, and AI topics.

Tutor & Mentor at [Casa De Amistad](#) 09/2021 - 06/2022

Casa de Amistad, a non-profit organization, offers academic support and mentoring needs for students facing educational hurdles. I tutored math and provided mentorship for underserved students facing challenges during the pandemic.

HONORS & AWARDS

- **President's Volunteer Service Award - Gold Medal:** Earned this prestigious award twice, in recognition of my commitment to community service. I dedicated over 100 hours annually to the San Diego Math Circle (SDMC) Ada Class & AI Program. Additionally, I volunteered at Casa De Amistad during the pandemic, providing academic support and guidance to students in need.
