

Dhairya Vashist

dhairya.vashist@gmail.com | linkedin.com/dhairyavashist | github.com/DV1277 | San Diego, CA

EDUCATION

University of California, San Diego

B.S. in Mathematics-Computer Science

La Jolla, CA, USA

2025 – 2029

Bal Bharat Public School Gangaram

High School

New Delhi, India

2021 – 2025

EXPERIENCE

Tech Intern & On-Site Volunteer

HuHaHo (HumanHappinessHope)

Summer 2023

New Delhi, India

- Contributed to the digitization of existing wellness programs using a SaaS solution, improving participant engagement by 30%
- Developed and streamlined sign-up and feedback systems, reducing manual entry time by 40%
- Assisted 700+ attendees during wellness camps, enhancing overall participant experience and data collection efficiency
- Collaborated with cross-functional teams to identify opportunities for digital transformation in community outreach

Freelance Developer

Self-Employed

2021 – 2024

Remote

- Built and deployed responsive sites and web apps for small businesses and clients using MERN Stack
- Designed modular APIs and integrated third-party tools for projects including task trackers, portfolio dashboards, and analytics portals
- Managed full project lifecycle—requirements gathering, development, testing, and deployment—ensuring consistent client satisfaction

PROJECTS

Dhwani – AR Speech-Transcribing Glasses | *Python, OpenCV, Google Speech API*

- Designed and prototyped 8 versions of AR glasses to transcribe speech in real-time for partially deaf and deaf individuals
- Developed support for over 100 languages, including India's 22 regional languages, improving accessibility and communication

Mona Lisa OS | *Custom Linux Distribution*

- Designed and built Mona Lisa OS, a lightweight, penguin-themed Linux distribution based on MX Linux
- Integrated open-source utilities and customized themes to enhance user control and modularity
- Learned basic system-level design, OS customization, and community-driven development through iterative testing and documentation

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, Java, SQL

Libraries & Frameworks: React, Node.js, Express.js, Flask, OpenCV, WordPress

Developer Tools: Git, VS Code, Visual Studio, npm, Figma
