

DYLAN MINH NGO

Huntington Beach, California | (714) - 262 - 7763 | dmn011@ucsd.edu | <https://www.linkedin.com/in/dylan-ngo24/>

Motivated and dedicated college student with a strong passion for engineering seeking internships to apply my knowledge of engineering concepts to real-world situations. Excited to gain hands-on experience in professional settings, learn from industry mentors, build connections, and foster personal and professional growth.

EDUCATION

University of California San Diego

La Jolla, CA

B.S Aerospace Engineering, Major GPA of 3.96

Expected Graduation: 2027

- Relevant Coursework: Aerospace Materials Science, Thermodynamics, Statics, Vector Calculus, Linear Algebra, MATLAB Programming for Engineering Analysis

La Quinta High School

Westminster, CA

Cumulative GPA of 4.63 (Weighted), 3.98 (Unweighted)

2020 - 2024

- Science Scholar of the Year
- Principal's Medallion for placing top 15 in the class

PROJECTS

UAV Quadcopter

Dec 2025 - Current

- Designed and implemented PID control loops in arduino for quadcopter stabilization
- Integrated brushless motors, ESCs, flight controller, and LiPo power system
- Assembled and soldered custom wiring for power distribution and sensor connections

Rubber Band Powered Balsa Wood Aircraft

Oct 2024 - November 2024

- Collaborated in a multidisciplinary team to design, fabricate, and optimize a balsa wood fixed-wing aircraft for a class flight-performance competition
- Applied aerodynamics principles (lift, drag, center of gravity, wing loading) to improve flight stability and range
- Contributed to team design reviews and decision-making through quantitative performance comparisons

Smart Trash Can "TrashTalk"

Sep 2024 - January 2025

Modified trash can w/ weight and ultrasonic tracking for web app. Notifies users whose turn it is to take out trash

- Developed ergonomic case for sensors and Arduino
- Utilized FLA printing, SLA printing, and laser cutting
- Developed components in SOLIDWORKS, AutoCAD, and Blender with schematics

EXPERIENCE

Cyberpatriot

Cisco & Packet Tracer Lead

2021 - 2024

- Collaborated with a team to resolve simulated cybersecurity challenges under strict time constraints
- Utilized Cisco Packet Tracer to design and troubleshoot network configurations, including VLANs, routing protocols, and access control lists
- Developed critical thinking and troubleshooting skills, enhancing proficiency in securing systems against potential threats
- Achieved the highest score schoolwide, ranking in the top 30% nationally in the CyberPatriot competition

SKILLS

- ANSYS Workbench
- MATLAB, Arduino
- AutoCAD, Fusion 360, SOLIDWORKS
- Microsoft Word + Excel
- Soldering
