ABOUT ME

I am a first-year Data Scientist at UCSD with a passion for building things that matter and finding the "why" behind the numbers. As a freshman, I'm still learning the more advanced stuff, but I'm solid with the basics like Python and GitHub, and I'm a very dependable person to have on a team. I'd love to help out on a project like this where I can contribute and learn at the same time.

EDUCATION

University of California, San Diego (UCSD)

B.S. in Data Science; Major GPA: 4.0/4.0

La Jolla, CA

Class of 2029

- **Relevant Coursework:** DSC 10, DSC 20, DSC 40A; MATH 18, MATH 20C, MATH 180A.
- **Academic Standing:** Received A/A+ in all completed technical and mathematical courses.

TECHNICAL SKILLS

Proficient: Python (Pandas, NumPy, Seaborn), Git/GitHub, Figma (UI/UX), LaTeX, Markdown

Familiar: SQL, Java, HTML/CSS, JavaScript, Matplotlib

Learning: Streamlit (Dashboarding), Docker, LLM Prompt Engineering

EXPERIENCE & LEADERSHIP

Chinese Engineering Society (CES), UCSD

Officer

Oct 2025 – Present

La Jolla, CA

- Collaborated with a team of 20 officers to coordinate logistics and promotional strategies for campus events.
- Work in the tech team to maintain the official UCSD CES website with HTML/CSS; version control over GitHub

Tianjin Energy Investment Company

Technical Intern

Dec 2024 – Mar 2025

Tianjin, China

- Assisted backend engineers with SQL database maintenance and implemented basic CRUD operations.
- Learned development cycles involving Docker environments and network programming.

PROJECTS

PokeVault | Python, Pandas, Data Scraping

Jan 2025 – Present

- Developed a tool to track Pokémon card values by scraping and cleaning online pricing data.
- Designed front-end interface with Figma and Cursor.

Pawgress App | Swift, Figma, Gemini API

Feb 2025 – May 2025

- Awarded **Regional Finalist** at Technovation Girls for a mental health habit-tracker.
- Designed the interface in Figma and integrated Gemini API to provide motivational feedback.

COMMUNITY & ENGAGEMENT

DS3 Involvement: Participated in past events including the Git Workshop, General Body Meetings (GBM), and bonfire.

Project Preparation: Actively self-studying relevant tech courses on Coursera.
