Education

University of California San Diego | La Jolla, CA

Expected Graduation: Spring 2026

GPA: 3.2

Major: Computer Engineering

Related Courses: Intro to Autonomous Vehicles (ECE 148)

- Soldered electrical components to power VESC, Raspberry Pi, LiDAR, OAKD Camera, USB Hub and GPS within a small car
- Collaborated with teammates to create a track made of GPS coordinate points that our car used to run autonomously
- Used OpenCV as a team to teach our car to stay within lanes
- Jointly created a computer vision model using Roboflow identifying rock, paper, scissors hand gestures

Sweetwater Union High School | National City, CA

Graduation: 2021

Experience

Volunteer: UCSD Envision Arts and Engineering Maker Studio | La Jolla, CA

Nov. 2025 – Present

- Troubleshoot student questions about machinery and/or equipment in the Envision space. 3D printers, soldering equipment, power tools, and laser cutters.

Hackathoner: H.A.R.D. Hacks UCSD | La Jolla, CA

Jan. 2026

- Coded in Arduino IDE to stop our car when an IR Obstacle Detection Sensor is turned on
 - Programmed our 3D printed arm in 24 hours to open its claw, reach down, close its claw, pick up a sock and then lift it and opening its claw behind itself dropping the sock in a cardboard box behind it
 - Connected Servo Motors, L29N Motor Driver, and the Elegoo Uno to make the wheels function
-

Leadership and Awards

Muir College Leadership Award Issued by UC San Diego John Muir College

May 2025

- Awarded for constant dedication to Muir college students through Muir Welcome Week

Dance Choreographer: Muir Welcome Week | La Jolla, CA

Summer 2022-2025

- Taught and created original choreography under strict time constraint and theme to incoming college student and competed along student at UCSD's UnOlympics
-

Skills & Abilities:

Spanish | Welding | Soldering | OnShape | GitHub | Canva | Python | Arduino Uno | ROS basics | VESC TOOL | Public Speaking |
