

Hanxiao Shi

Structural Engineering Student ♦ hanxshi@gmail.com ♦ (801) 708-2687 ♦ La Jolla, CA

EDUCATION

University of California - San Diego

September 2024 - Expected June 2028

Bachelor of Science, Structural Engineering

La Jolla, CA

GPA: 3.98/4.0, Awards/Honors: Provost Honors (Dean's List), Community-Engaged Honors Writing Program

Relevant Coursework: Statics, Dynamics, Solid Mechanics, Structural Analysis

WORK & LEADERSHIP EXPERIENCE

UC San Diego Structural Engineering

Jan. 2026 – Present

Reader / Teaching Assistant

La Jolla, CA

- Engineering Mechanics: Statics
- Held office hours weekly and exam review sessions with 50+ students in attendance.
- Took the lead on making assignment rubrics, student email correspondence

Ardurra

Jun. 2025 – Present

Structures Intern

San Diego, CA

- Industry experience in stormwater, bridge, transportation and civil engineering.
- Bridge Load Rating on 2 mi. Florida Highway; concrete slab; CMU wall; canopy design
- **Key Skills:** Bluebeam Revu, AutoCAD, Microsoft Excel, AASHTO BrR, ENERCALC

ASCE Pacific Southwest Symposium Environmental Design Team

Oct. 2024 – Present

Founder & Project Manager

La Jolla, CA

- Co-founded the first Environmental Design Competition team at UCSD.
- Leading development for 15-page Direct Potable Reuse (DPR) water treatment system design proposal.
- Prototyping water filter design and traveling to Pacific Southwest Symposium to present
 - **Key Results:** 7th place out of 14 in first year competing.

Project in a Box

Sep. 2024 – Present

Project Committee & Technical Lead

La Jolla, CA

- Educational outreach once a month at local San Diego libraries, teaching K-12 students STEM projects
- Leading Arduino project: "Arduiyo-yo" using accelerometer and laser cut components
- Weekly workshops with finished projects for UCSD community

Yonder Deep: Autonomous Surface Vehicle Development Team

Oct. 2024 – Present

Mechanical Designer

La Jolla, CA

- Developing and testing a low-cost, autonomous underwater vehicle to collect Arctic glacial melting data
- Buoyancy analysis and rapid prototyping with 3D printed components
 - **Key Results:** Leakproof pool test with successful heading. Redesigned electronics enclosure to 50% of the original size. Received over \$7000 in grant funding in 2025.

SKILLS & INTERESTS

- **Skills:** Microsoft Office, SOLIDWORKS, MATLAB, AutoCAD, SAP2000, Mandarin Chinese, Adobe Creative Suite, Canva, Python, Java; communication, problem solving, critical thinking, attention to detail
- **Interests:** Civil/Architectural; Robotics; Journaling; Language Learning; Dance; Composting/Gardening; Thrifting
