

Ingkawat Jaroensri (Ink)

Contact: 858-220-2700 ijaroensri@ucsd.edu

Skills:

- Basic Python, spreadsheet, and data analysis skills
 - Active communicator, diligent worker, and detail oriented
-

Relevant Experiences/Projects:

- SPIS student (08 - 09/2025)
 - Learned basic Python and overview of various CS related subjects such as ML and Raspberry pi. Worked on application based labs with peers and a final project related to ML and robotics. My partner and I created a dancing robot that changes its dance move based on the genre of songs being played recognized by the ML from mel spectrogram.
 - IELTS Tutoring (03 - 07/2025)
 - Tutored a Thai student for the IELTS standardized test by an online platform for free. Spent around 5 hours per week teaching and preparing materials. Taught me how to better communicate and elaborate concepts to others, and inspired me to do community service.
 - Science Project Experiment (06 - 10/2024)
 - Conducted an experiment on tooth decay and how substances affect it. Analyzed the data and presented it to science teachers. Learned consistent responsibility over the span of the project and applied data analysis using ANOVA and presentation skills.
 - Shadowing Data Analyst (04 - 05/2023)
 - Developed presentation, researching, spreadsheet, and data collection skills. Learned about the responsibilities of the job and how they interact with clients.
 - 1st at Spotting Research Flaws Competition (02/2023)
 - Utilized my statistics knowledge to aid the team in identifying mistakes in the results and graphs of an altered research paper. Gained inspiration to pursue a career related to data analysis.
-

Education:

- Data science major at University of California San Diego (09/2025 - now)
- Patumwan Demonstration School (06/2018 - 03/2025)
