EDUCATION

University of California San Diego (UCSD)

La Jolla, CA

B.S. Mathematics-Computer Science, Minor in Business

June 2026

Cumulative GPA: 3.89/4.00

Relevant Coursework: Data Structures, Advanced Data Structures, Algorithm Analysis, Theory of Computation, Reinforcement Learning, Working with Large Code Bases, Software Engineering, Principles and Paradigms

PROFESSIONAL EXPERIENCE

General Infomatics, Test Resource Management Center

Yuma, AZ

Software Engineering Intern at Yuma Proving Ground

Jun 2025 – Aug 2025

- Designed acoustic scoring system in Python, reducing post-test analysis time by 8 hours per test
- Processed ballistic pressure data from DEWESoft acquisition systems, implementing data analysis
- Collaborated in an agile environment to translate stakeholder requirements into production tools

UCSD Jacobs School of Engineering

La Jolla, CA

Computer Science Instructional Assistant (Data Structures & OOP)

Sep 2024 – Dec 2025

- Supported 30+ students with coding assignments tackling Java basics and data structures
- Evaluated 100+ programming assignments, providing feedback on code quality, readability, and styling

Golden Gate Area Council, Scouting America

San Francisco, CA

Financial Analyst Volunteer

Sep 2024 – Jul 2025

- Analyzed multi-year financial and IRS Form 990 data to identify trends and cost optimization opportunities

PROJECTS

CSE 110 Software Development, Sweat Deck

Mar 2025 – Jun 2025

- Built and deployed a CI/CD pipeline using Node.js, Puppeteer, ESLint, and JSDoc, automating testing on Git
- Collaborated in a team-based Agile environment, owning testing and deployment workflows

Personal Portfolio Website

Sep 2025 – Present

- Designed and deployed a personal website using HTML, CSS, and JavaScript via GitHub Pages

Machine Learning Model with Flappy Bird

Sep 2024 – Oct 2024

- Implemented the NEAT algorithm in Python to train an autonomous agent using reinforcement learning

Discord Music Bot

Sep 2025 – Sep 2025

- Engineered a Discord music bot with Python, integrating yt-dlp, ffmpeg, and Discord API with VS Code
- Improved pause, skip, loop, and queue functions to enhance bot versatility using Python

EXTRACURRICULARS

Cornerstone Consulting Club at UCSD

La Jolla, CA

Project Manager

Sep 2025 – Present

- Leading team of 4 student consultants to practice casing and offer pro bono work for local businesses

Sigma Eta Pi at UCSD – Entrepreneurship Organization

La Jolla, CA

President

Jul 2024 – Aug 2025

- Led a 40-member organization, planning startup education and scaling membership from 12 to 30 actives

Serious Games for Climate Change - Solar Weather with Qualcomm Institute

La Jolla, CA

Unreal Engine UI Designer

Jan 2025 – Jun 2026

- Developed interactive UI components including data-driven infopanels and tutorials using Unreal Engine

SKILLS & CERTIFICATIONS

Languages: Python, Typescript, Java, C/C++, JavaScript, HTML, CSS

Frameworks/Tools: Node.js, React, Git, JUnit, NumPy, Pandas, scikit-learn, DEWESoft, Unreal Engine

Practices: API Integration, Full-Stack Development, CI/CD, Agile, Unit Testing, Data Analysis

Awards: Eagle Scout, Interim Security Clearance (Inactive), President's Volunteer Service Award

Interests: Chess, personal finance and self-development reading, calisthenics, strategy games
