Business Economics major with a Data Science minor, passionate about transforming raw data into clear reports and visuals that lead to actionable insights. Over the past four years, I've strengthened my skills in financial analysis, budget monitoring and performance tracking with government agencies and nonprofit organizations, while building proficiency in tools such as Python, Excel, R, Stata, Tableau and JMP.

EDUCATION & CERTIFICATION

UC San Diego

B.S in Business Economics; Minor in Data Science & Business Analytics

San Diego, CA

Expected June 2026

Relevant Coursework: Principles of Accounting, Business Finance, Applied Market Research, Customer & Business Analytics, Data Analytics for Social Science, Data Structures & Algorithms, Probabilistic Modeling and Machine Learning, Data Ethics

Coursera Certificate

Online

Completed July 2025

EXPERIENCE

Performance & Quality Improvement Intern

County of San Diego HHSA – Office of Performance & Improvement Management

San Diego, CA

September 2025 – December 2025

- Analyzed performance datasets across seven Public Health branches using Excel and Clear Impact; updated KPI scorecards and improved metric alignment with organizational goals.
- Used Clear Impact and Excel to clean, structure, and validate data; produced performance reports supporting department wide decision-making and process improvement.

Gift Policy Administration and Donor/Fund Stewardship Assistant

Advancement Services – UCSD

La Jolla, CA

December 2024 – September 2025

- Managed and reconciled thousands of gift records and financial transactions from multiple databases, ensuring data accuracy and compliance with university financial policies and reporting standards.
- Collected, reviewed, and analyzed thousands of gift, constituent, and financial data from multiple databases and Microsoft Office tools, ensuring accuracy and providing key insights to support decision-making.
- Developed and optimized data-driven communication templates through Excel analysis, increasing donor engagement by 20% and improving stewardship efficiency.

Treasurer

Nueva Herencia & SHPE – UCSD

La Jolla, CA

September 2022 – Present

- Manage organizational budget growing from \$800 to \$13,156, achieving net profit of \$5,954 for the 2024-2025 fiscal year through strategic financial planning and expenditure control.
- Create detailed financial reports and budget statements using Excel and Google Sheets to track revenue, analyze spending patterns, and provide actionable insights that reduced event costs by 15%.
- Prepare and present quarterly financial statements and cash flow analyses to the executive board, ensuring fiscal accountability and compliance with organizational policies for 300+ member communities.

PROJECTS

Hackathon Participant

Data Science Student Society (DS3) – UCSD

La Jolla, CA

April 2025 – April 2025

- Cleaned and analyzed 5,000+ entry dataset, performing feature engineering and data quality filtering using Python (Pandas) to prepare structured data for predictive modeling.
- Build a Linear Regression model and visualize data patterns using Matplotlib and Seaborn to identify trends and relationships, informing model development strategy.
