

Juan Fernández de Navarrete

UC San Diego 4th year CS student

jfernandezdenavarret@ucsd.edu · linkedin.com/in/juan-fernandez-de-navarrete/

OBJECTIVE

Motivated Computer Science student with strong skills in algorithms, software development, and emerging technologies. Eager to contribute to innovative projects, apply analytical and problem-solving abilities, and support organizations in developing impactful technological solutions.

EXPERIENCE

AI System Developer – Amazon University Engagement Competition

July 2025 – October 2025

- Developed an AI system for real-time accident detection and traffic flow classification using computer vision and machine learning.
- Mentored by Amazon engineers on applying computer vision and cloud-based AI tools for real-time traffic data analysis and optimization.

Sustainability Tech Consulting Intern – EY Ireland

June 2025 – July 2025

- Conducted research on carbon emissions and sustainability metrics across multiple industries.
- Built Excel-based models for emission calculations and supported data-driven presentations in PowerPoint.
- Strengthened understanding of sustainability tech systems and corporate environmental strategy.

Database Assistant – Praxis Center

Dec 2024 – Apr 2025

- Automated XML generation processes to improve data exchange and reduce manual workload.
 - Optimized internal database structures to enhance operational efficiency and accuracy.
 - Supported digital transformation initiatives using VBA and SQL for administrative workflows.
-

EDUCATION

UC San Diego - B.Sc. in Computer Science (International Mobility)

Sep 2025 - Jun 2026

Trinity College Dublin – B.Sc. in Computer Science (International Mobility)

Sep – Dec 2024

Complutense University of Madrid - B.Sc in Computer Science

Sept 2022 - Jun 2026

Amaniel Professional Conservatoire – Piano Degree (10th Year)

2016 – Present (2025-26 Gap year)

RESEARCH & CERTIFICATES

- **Picasso Lab UC San Diego** working on QML
 - **Quantum vs. Classical SVMs** on MNIST Project
 - **Final Degree Project** in QC: QML for Financial Applications in Neutral Atom Architectures.
 - **Qiskit Global Summer School 2025** (Quantum Excellence Level Grade)
 - **Quantum Information Science and Engineering Program** by Virginia Tech and C2QA
 - **Graduate Course** in Gen AI (750 hrs) - UCAM | University of Murcia
-

PROGRAMMING LANGUAGES: Python, C/C++, Java, Matlab, SQL, HTML/CSS, Qiskit SDK

LEADERSHIP & SKILLS

- **European Solidarity Corps** – Completed humanitarian aid training in Lyon.
- **Special Olympics & Voluntarios por Madrid** – Assisted in inclusion-focused events and taught technology to senior citizens.
- **TCD Basketball Team Member & Former UCM Captain** (2x league winner) – Leadership through collaboration and teamwork.
