ACTIVITIES

Math Club | Publicity Officer

AUG 2021 - JUN 2025

- Managed social media accounts and promoted activities to a server of 100+ members
- Organized local fundraising events and developed apparel designs for competitions

Inferno Engineering, CARPA | Quality Assurance

AUG 2024 - JUN 2025

- Student-led project focused on a dual rocket/aerial drone robotic system
- Reviewed manufactured parts, utilized SOPs and metrology tools to verify part precision

Pomolands | Graphic Designer

SEP 2023 - SEP 2024

- Student-led company focused on developing a gamified productivity app
- Utilized Blender to animate visual effects, 2D art, and 3D models on Unity's 3D engine

Bluetooth BB8 Droid Design | Summer Passion Project

MAY 2024 - AUG 2024

- Utilized Fusion 360 to design a hamster-wheel gyroscope mechanism, powered by a 12V battery and controlled via an HC05 Bluetooth Module
- Used Arduino Uno circuitry to integrate and control two metal gearmotors using a Pololu Dual VNH5019 Driver Shield

Teacher Assistant, CAMS | Introduction to Engineering and Design

AUG 2023 - JUN 2024

- Demonstrated CAD fundamentals to first-time design students through Autodesk Inventor
- Evaluated students' Technical Data Packages as per ASME Y14.5 Drawing Standards

FIRST Robotics Competition, Team 687 | Design Team

AUG 2021 - JUN 2023

- Utilized Fusion 360 to design a three-stage cascading elevator subsystem
- Developed an elevator assembly guide to assist build team members

SKILLS

- Developed programs in Java, Python, C++, and HTML through Visual Studio Code
- Proficient with Blender, Fusion 360, Autodesk Inventor, and MATLAB

EDUCATION

California Academy of Mathematics and Science | Carson, CA

Relevant Coursework

- Principles of Engineering, Aerospace Engineering, Software Design and Development, and Engineering Design and Development

California State University, Dominguez Hills | Carson, CA

Relevant Coursework

- Multivariable Calculus, Discrete Structures, Differential Equations with Linear Algebra, Complex Analysis, and Calculus-based General Physics I
-
