SUMMARY

Second-year Computer Science student at UC San Diego (GPA: 4.0) with experience in web development, research, and collaborative software design. Demonstrated leadership through mentoring, teaching, and outreach. Interested in strengthening my software engineering skills and learning new technologies to contribute to impactful, real-world projects.

EDUCATION

University of California, San Diego La Jolla, CA
Bachelor of Science in Computer Science, Minor in Biology | GPA: 4.0 Dec. 2027
Relevant Coursework: Data Structures & Algorithms, Systems Programming & Software Tools, Math for Algorithms & Systems

Grossmont-Cuyamaca Community College Dual Enrollment El Cajon, CA
Relevant Coursework: Intro to C++ Programming, Intermediate C++ & Data Structures June 2024

TECHNICAL SKILLS

Programming: Python, Java, JavaScript, C/C++

Tools: Git, GitHub, VS Code, Linux, React.js, Node.js, HTML, CSS

Certifications: [CodePath](#) Intermediate Technical Interview Prep (September 2025 - November 2025)

RELEVANT EXPERIENCE

UCSD Early Research Scholars Program - Undergraduate Researcher | La Jolla, CA Sept. 2025 – Present

- Assisting research on developing a web tool for researchers to obtain primers for Loop Mediated Isothermal Amplification.
- Developing an algorithm to automate designing primers for Split-LAMP ultimately for miRNA detection.

CSE-PACE - Mentor | La Jolla, CA Sept. 2025 – Present

- Lead weekly meetings for 100+ first-year CSE students, introducing them to industry professionals and CS technical topics.
- Build community by facilitating connections among students, faculty, and mentors through panels and social events.

Lavner Education - STEM Instructor Intern | San Diego, CA June 2025 – August 2025

- Taught over 80 campers in various weekly camps including App Development, Web Dev (HTML, CSS, JavaScript), Robotics (Python), and Minecraft Design & Innovation, explaining challenging concepts and fundamental programming knowledge.
- Provided real-time debugging and coding support, enabling 100% of students to complete end-of-week projects.
- Collaborated with camp directors to plan schedules and troubleshoot technical classroom issues to ensure well-organized, effective, and supportive learning environments, encouraging families to sign their kids up for multiple weeks of camp.

UCSD REHS - Research Intern | La Jolla, CA June 2023- August 2023

- Developed a Python program under the guidance of Dr. Kandes to automatically discover and visualize relationships among 158 container repository files and dependencies, generating interactive, reloadable graphs.

PROJECTS

Autumn Moon Festival Site - SWE | Design Co UP-Grade [GitHub](#) | [View Project](#)

- Researched cultural traditions of the Autumn Moon Festival across Asian communities to guide site design and content.
- Collaborated with designers, UX researchers, and nonprofit partner to determine site content, features, and deployment.
- Built information architecture by synthesizing background research, survey insights, and user interviews.
- Developed the homepage, navigation bar, and festival information pages using Vue.js, and deployed the site on GitHub.

Solanum - Front-end Developer | ACM Hack Project Teams [GitHub](#) | [View Project](#)

- Designed and prototyped a website in Figma to help students start urban gardening, and connect with on campus gardens.
- Built navigation bar, contact form, FAQ page, MongoDB-backed garden listings, and several pages using the MERN stack.
- Deployed and held user testing at Projects Showcase; students are more likely to try urban gardening or visit gardens.

AFFILIATIONS & INTERESTS

Developer | CSES Development | UCSD Dec. 2025 – Present

Outreach Logistics Lead | Association for Computing Machinery | UCSD June 2025 – Present

Member | Women in Computing | UCSD Sept. 2024 – Present
