SUMMARY

Motivated second year student at University of California San Diego pursuing an undergraduate degree with a Data Science major & Business Analytics minor. Excellent analytical and organizational skills with proven successes managing academic workload, volunteering events and extracurricular activities. Seeking internship opportunities to gain practical experience.

EXPERIENCE

Aikido Labs, La Jolla, CA

Apr 2025 – Present

Co Founder

- Building the University of California's first fully undergraduate led research lab.
- Focusing on artificial intelligence, data science, and neurobiology.
- Working closely with UCSD Undergraduate Research Hub, with goals to expand UC systemwide.
- <https://4ikido.com>

Blackstone UCSD Basement Launchpad, La Jolla, CA

Oct 2024 – Jun 2025

Cognome Team Co Founder

- Accepted into the Blackstone LaunchPad Incubator at UCSD to grow and cultivate startup. Learned basics of startups, business models, seed funding, etc.
- Researching genomic language models to reduce drug development times which will allow drugs to enter markets quickly.
- Work closely with mentor to guide and build upon idea and grow the concept.

Team 7157 Mubotics, Brea, CA

Oct 2023 – May 2024

Business Grant Writer

- Responsible for researching, writing and applying to grants for funding as well as managing media and social networking with sponsors and donors.
- Team raised in excess of \$100k each year in 2023 and 2024.
- Responsible for writing monthly Mubotics Team newsletters and updates.

A1M (Startup), San Diego, CA

Jan 2021 – May 2021

Beta Tester

- Participated in Beta Testing for A1M mobile applications on Android and iOS platforms.
- Reported defects and enhancements to offshore development team for remediation using GitHub.

EDUCATION

UC San Diego, La Jolla, CA — Bachelor of Science in Data Science

Graduation 2027

3.6 GPA. Data Science B.S. with a Minor in Business Analytics. Relevant Coursework: DSC80 (focus on data manipulation, statistical inference, machine learning, algorithm design, data visualization & data systems), DSC40A (focus on mathematical foundations of machine learning, including empirical risk minimization, optimization methods, regression, classification & discrete probability), DSC40B (focus on time complexity analysis, recursive algorithms, graph theory & graph search algorithms), MGT153 (focus on business analytics tools, including Excel, SQL, relational databases, Python & Tableau).

Brea Olinda High School, Brea, CA — *Golden State Seal Merit Diploma*

May 2024

4.61 Weighted GPA. Global Information Technology Academy (GITA) – college level Computer Science program. Academic High Honor Roll 2020–2024. 14 AP Courses, 4 years of Chinese. National Honor Society Member.

PROJECTS
