Education

UC San Diego

Bachelor of Science in Artificial Intelligence

Sept 2025 – June 2029

La Jolla, CA

Relevant Coursework

- Java Data Structures
- Java
- Introduction to A.I
- Linear Algebra

Experience

SHINE Napa Valley

Main Cast Member

August 2024 – May 2025

Napa, CA

- Was a main cast member of a youth led podcast trying to spread mental health awareness with teens within our county.
- Met once a week to film and interview guest members to help further our outreach to the community.
- Outside of meetings helped produce and edit episodes on a weekly basis.

NVUSD Information Technology

Summer Intern

June 2023 – August 2023

Napa, CA

- Worked with other interns and Tech Leads in repairing school Chromebooks.
- Visited different school campuses in the district to repair, replace, and monitor technologies such as computers, projectors, and WiFi routers.
- Developed basic Information Technology skills through different workshops.

Projects

Simple Chat Bot | *Python, ChatGPT API, OpenAI-Whisper*

February 2026

- Developed an AI chatbot that can communicate and answer questions based on voice input.
- Used the ChatGPT API as the main brain and processing engine for the bot.
- Integrated the Whisper library to transcribe spoken input into text for the bot to process.

Card Counter | *Python*

November 2025 – January 2026

- Created a program that recognizes cards on the table during blackjack and determines the best action.
- Used the OpenCV Python library to detect contours and identify playing cards' rank and suit.
- Each card rank is assigned a value; the running count then recommends the best action to take.

Technical Skills

Languages: Python, Java

Developer Tools: VS Code

Technologies/Libraries: GitHub, JUnit, OpenCV, PyTorch, ChatGPT API

Competitions

Participant

UC San Diego

Start Up Incubator Hackathon

February 21, 2026

- Developed a fullstack google chrome extension with a group of 5.
- Used a JavaScript frontend and a Python backend with the ChatGPT Api to take in a highlighted word to give a definition and another sample sentence.
- Gained hands on experience in rapid prototyping, and fast problem solving.

Languages

Chinese

- Studied Chinese for 4 years.
- Limited working proficiency.
