## EDUCATION

### University of California, San Diego

*Bachelor of Science in Economics, Minor in Data Science*

La Jolla, CA

Sep. 2023 - June 2027

**Relevant Coursework:** Programming and Basic Data Structures, Applied Econometrics and Data Analysis, Game Theory, Microeconomics A–C, Macroeconomics A–B, Econometrics A–C, Machine learning for Economics

**Certifications:** Behavioral Finance (Duke University), IBM Tools for Data Science, Google IT Automation with Python, Python for Data Science, AI & Development (IBM)

## EXPERIENCE

### Marketing Intern- Kshema General Insurance Limited

July - Sep. 2025

- Conducted market and demographic segmentation to identify target regions and assess product demand.
- Built Excel dashboards (pivots, XLOOKUP) to analyze performance metrics (CTR, CVR, ROI); translated data into clear recommendations that guided marketing and pricing decisions.
- Produced memo-style readouts to guide spend; tested assumptions and documented data lineage for auditability.
- Proposed a new creative/timing concept; captured results and recommendation in a one-pager

### Research Assistant: Economics Department UCSD

Nov. 2024 - Present

- Scraped 8 years of Teabooks and SEP documents; converted unstructured text into clean tables (standardized labels, joins, de-duplication).
- Found British and European Market alternatives, conducted sanity checks and created a clear README.
- Worked with LSMS, IPUMS and Census data, reviewed multiple datasets, and gathered unstructured data to build required dataset.
- Integrated AI and Large-language models to streamline the research process, and a Python pipeline.

### Students for Exploration and Development of Space: Director of Business

Nov. 2024 - Present

- Managed sponsor outreach pipeline (CRM tracker) and raised \$1,210 for technical projects; strengthened communication and stakeholder engagement skills.
- Structured tailored pitches and handled terms/logistics with partners, lending exposure to stakeholder management and light negotiation.
- Oversaw budgeting, coordination, and milestone tracking and developed project management discipline and attention to operational detail.

### Resident Assistant: UC San Diego, Seventh College

Aug. 2024 - June 2025

- Managed a 44+ resident community with discretion and policy compliance; documented incidents promptly.
- Planned a \$440 annual program; delivered 9+ events/quarter and tracked outcomes—budget ownership, scheduling, and vendor coordination.

## PROJECTS

### Internship Program: Dr Zachary Michaelson (New York University)

May - August 2022

- Authored and published a research paper—[‘Relationship between income inequality and trade imbalance’](#)—linking macro indicators to clear conclusions.
- Cleaned and structured World Bank datasets; applied statistical/data analysis methods to produce charts/tables that supported the paper’s findings.
- Strengthened proficiency with Excel formulas and charts to communicate results in concise, decision-ready visuals.

### Charity Fundraisers:

#### Maitri

Jan - May 2025

- Directed the event, staffing, vendor coordination, and risk checks ensuring smooth execution.
- Allocated a limited budget effectively and secured sponsor contributions to meet funding targets.
- Managed logistics (venue, schedules, outreach) and delivered a successful program with strong attendee feedback.

#### Kalā Satkrīyā

Feb - May 2022

- Raised **Rs 200,000** in donations for Spohoorti Foundation. Secured state government support and drove community marketing and ticket sales to expand reach.
- Organized a dance show and stalls to mobilize donations; taught dance to Spohoorti Foundation children as part of the program.
