## Experience

### Digital Platforms Intern | SF-Marin Food Bank

San Francisco, CA | Jun 2024 – Jul 2024

- Optimized CRM wiki by organizing and embedding pages into modules, streamlining navigation, and improving accessibility for users.
- Revamped training materials by converting PowerPoints into 150+ organized wiki pages on Microsoft SharePoint with detailed image annotations.
- Resolved team troubleshooting and scheduling issues through effective communication.

### Student Tutor | Kumon

San Francisco, CA | Jun 2021 – Jul 2024

- Delivered personalized math and reading guidance to a diversified group of students both virtually and physically.
- Ensured learning objectives were met by monitoring and documenting student progress.
- Assessed student learning styles and adjusted instruction to enhance academic comprehension.

### Business Analyst Intern | Accenture

San Francisco, CA | Jun 2023 – Aug 2023

- Utilized thorough market research and statistical analyses to identify areas of struggle for clients.
- Collaboratively developed target personas, product launch timelines, and Figma mock-ups for a proposed client solution.
- Developed and presented a first place presentation on an online fraud defense solution with team members.

## Projects

### Rooted | IoT Smart Plant Monitoring System

[github.com/melindaahli/rooted](https://github.com/melindaahli/rooted)

An end-to-end IoT system that streams environmental sensor data to a web dashboard to generate plant health scores and real-time care recommendations.

- Arduino, C++, Python, Flask, React, TypeScript, Tailwind CSS

### WICS Attendance Tracker | Data Analytics Dashboard

An in-progress web application that visualizes attendance statistics across Women in Information and Computer Sciences (WICS) events to identify engagement trends and support data-driven event planning.

- PostgreSQL, Express.js, React, Node.js

### Hidden Figirlines | Interactive Women's History Game

[github.com/melindaahli/hidden\\_figirlines](https://github.com/melindaahli/hidden_figirlines)

An interactive web-based game on women's history featuring dynamic event sequencing and collectible rewards.

- React.js, Tailwind CSS, HTML, CSS

## Technical Skills

HTML, CSS, Java, C++, JavaScript, React.js, Python, SQL, Figma, Adobe Photoshop

## Education

### University of California, Irvine

Bachelor of Science in Software Engineering |  
Expected Mar 2028

- 3.98 GPA, Dean's Honor List
- Related Coursework**  
Python Programming;  
Programming in C/C++ as a Second Language;  
Data Structure Implementation and Analysis;  
Software Testing, Analysis, and Quality Assurance;  
Programming in Java;  
User Interaction Software;  
Designing For IoT;

## Code Nation

Student Fellow | Oct 2020 – Jun 2023

- Developed expertise in HTML, CSS, JavaScript, and ReactJS by building interactive applications and games.

## Inspirit AI

Student | Jun 2022 – Aug 2022

- Learned about and explored different types of machine learning models and algorithms.
- Using machine learning, performed hit song prediction and song recommendations with Spotify data and raw song audio.

## Code Tenderloin

Student Intern | Jun 2022 – Jul 2022

- Enhanced proficiency in CSS to build dynamic, adaptive websites that cater to diverse screen sizes and resolutions.
- Elevated proficiency in soft skills, media literacy, and financial knowledge through hands-on workshops.

## Leadership

### Women in Information and Computer Science (WICS)

- Outreach Committee Member
- Dec 2025 – Present

## Languages

English, Cantonese
