

MINDY XIA

San Diego, CA | (530) 407-8391 | mindyxial@gmail.com | www.linkedin.com/in/mindy-xia-020951327

OBJECTIVE:

An aspiring electrical engineer with a strong foundation in programming, technical expertise and multilingual communication skills in both English and Mandarin.

EDUCATION:

University of California, San Diego

2025 - 2027

Major in Math & Applied Sci (Electrical Engineering concentration)

Relevant Courses: Numerical Optimization / Linear Prog, Intro to Analog Circuit

2023 - 2025

Diablo Valley College

Relevant Courses: Prog Design & Data Structures, Object Oriented Programing C++, Assembly Lang, Differential Equations, Linear Alg

SKILLS:

Software: AutoCAD, KiCad, LTspice

Languages: C++, C, Java, Python

- Communication skills
- Project management
- Data Entry

WORK EXPERIENCE:

Electrical Engineering / 3D Modeling Team Intern

May 2025 - Sep 2025

Diablo Escapes, Walnut Creek, CA

- Programmed ESP32-based interactive puzzle devices with Wi-Fi connectivity and built a centralized server to manage cross-room communication and Game Master controls.
- Developed responsive LVGL user interfaces with rotary encoder navigation, dynamic UI elements, and integrated sound feedback.
- Collaborated with design and art teams to optimize visual assets for performance-limited hardware.

Commissioning Team Assistant Intern

Jun 2024 - Aug 2024

Siemens Energy, Shanghai

- Collaborated with the manager and engineers, analyzed data and graphs to facilitate clear communication with the clients.
- Supported the team in identifying and resolving issues to ensure smooth project execution.

ACTIVITIES:

Game Developing: Passionate about crafting immersive experiences through innovative design and coding.

Participated in game jams with Unity-made games. Club project published on Steam: Joyspring.

President of Circuit Crafters Club: Led hands-on Arduino workshops, guided members through projects.
