MyeonghaKim

Computer Science Student

Projects

- Built a platform where users can post spontaneous meetups and recruit members for activities

Memeforyou — GDG on KU Worktree Team 1
Sep 2025 – Dec 2025 | React

- Developed a web platform that recommends memes based on users' natural language inputs
- Implemented frontend features using React to display and interact with AI-generated meme recommendations

Deeplant Industry Collaboration — AI / MLOps Developer
May 2025 – Dec 2025

- Developed AI models to predict meat quality using hyperspectral imaging data
- Built data processing and model training pipelines for spectral datasets
- Awarded First Prize at the Korea University Capstone Design Competition

Hackathons & Contests

NutriFit — Google Solution Challenge 2024
Jan 2024 – Mar 2024 | Flutter

- Developed a mobile application for personal nutrition and health tracking
- Implemented mobile UI and user interaction features using Flutter

AI Spoke Guard Design Generator — REAL:Thon Hackathon
Dec 2024 | React

- Developed a web application that generates wheelchair spoke-guard design prompts using multimodal AI
- Integrated generative AI models to create visual design concepts from user inputs
- Awarded First Prize (Top Award) at REAL:Thon

Travo — Korea University NE:XT Contest
Apr 2025 – May 2025 | React

- Developed a web application that generates travel itineraries using AI based on users' natural language inputs (travel

concept, destination, dates) • Implemented a system that automatically creates personalized travel schedules from user prompts

- Awarded Grand Prize at the Korea University NE:XT Contest

Trabuddy — Google Solution Challenge 2025

Apr 2025 – May 2025 | React Native

- Developed a voice-based travel assistant app for elderly users to improve travel accessibility
- Implemented speech recognition and natural language interaction to provide travel guidance and answer user questions

Skills

React, React Native, Javascript, Python, C, PyTorch

Education

MAR 2023 – FEB 2027, BACHELOR'S DEGREE

Korea University, Seoul
