San Diego, California | (949)-560-4628 | naterspear@gmail.com | [LinkedIn](#) | [GitHub](#)

EDUCATION

University of California San Diego, La Jolla, CA

June 2027 (Expected)

Bachelor of Science in Mathematics and Economics

Minor in Data Science

GPA: 3.34/4.0; Provost Honors Recipient

WORK EXPERIENCE

UCSD Undergraduate Economic Research Lab, La Jolla, CA

January 2025 - Present

Lab Assistant

- Worked in Python for webscraping and geolocation of South American colleges under the guidance of a PhD economics student for their thesis on capturing spillover effects of higher education in developing countries
- Utilized Stata and R to efficiently access large amounts of data to test and train different regression models
- Presented organized ad-hoc research on multi-decade panel data for Benin and Colombia. Research focused on industrial changes with links to college creation and overall population changes observed through policy and surveys

Miltenyi Biotec, San Diego, CA

July 2025 - September 2025

Marketing and Data Analytics Intern

- Cleaned large datasets consisting of millions of data points and tens of millions of revenue per year to capture and analyze customer spending patterns relating to flow cytometry and other commercial products
- Created models and visualizations using Excel and Power BI to be used in multiple presentations to leadership
- Defined statistical metrics and reached tangible conclusions to be used in 2026 marketing campaigns

HiroNori Craft Ramen, Irvine, CA

May 2022 - Oct 2022

Server

- Utilized sharp communication skills to facilitate positive customer interactions to maximize consumer experience
- Performed multiple tasks in a fast-paced environment while staying attentive to customer needs

EXTRACURRICULARS

Eclipse Analytics, La Jolla, CA

October 2025 - Present

Journalist and Researcher

- Learning about applied statistical methods and analysis, specifically pertaining to baseball, to present clear and concise opinions, predictions, and models on a multitude of topics and projects
- Conducting in-depth research on the efficiency of modern defenses in the NFL by utilizing publicly available play-by-play data to build linear regression models and preparing a machine learning model in PyTorch
- Writing monthly articles pertaining to professional sports and prediction markets, involving deep dives into emerging trends showcased through written skills, data analysis, and modeling using publicly available data

Society of Undergraduate Mathematics Students, La Jolla, CA

January 2024 - Present

General Member

- Weekly meetings hosted by fellow students on a range of topics to learn about new sectors of math and problem-solving through solving questions and discussions

Orange County Habitats, Newport Beach, CA

October 2022 - December 2024

Volunteer Leader

- Developed interactive activities about beach and coastal cleanups to keep volunteers engaged and satisfied
- Directly helped re-shape Southern Californian wetlands through the extermination of invasive species and successful planting of a native shrub called Mule Fat with tangible results after several years

SKILLS

- Tools: Microsoft Suite, Google Suite, MatLab, R, Python, STATA, Power BI, Latex, QGIS
- Interests: Sudoku, language learning, swimming, rock climbing, baseball and football
