EDUCATION

University of California, San Diego

B.S. Cognitive Science (Spec. Machine Learning and Computation), Minor in Data Science

San Diego, CA

Expected June 2027

Relevant Coursework: Supervised/Unsupervised Machine Learning Algorithms, Probability and Statistics, Vector Calculus, Data Science in Practice, Data Analytics and Visualization (Tableau), Data Structures for Data Science, Linear Algebra

GPA: 3.85 | Provost Honors

Skills: Programming & Data Analysis: Python (pandas, matplotlib, scikit-learn, plotly, geopandas, NLTK), R, SQL (MySQL, MySQLWorkbench), **Data Visualization & BI:** Tableau (Prep, Desktop, Public), Excel, Power BI **Statistical & Analytical Methods:** Data cleaning and pre-processing, Statistical analytics, **Tools:** Github, MATLAB, Microsoft Office, Microsoft Powerpoint, Microsoft Word | **Certifications:** Tableau Desktop Foundations, Codecademy Learn SQL Course

WORK EXPERIENCE

UCSD IGE MedTech Accelerator

MedTech Marketing Intern

La Jolla, CA

June 2025- present

- Develop and implement multi-channel marketing strategies, including bi-weekly MyEmma newsletter campaigns, social media marketing campaigns, shortform content, user research surveys, flyers and handbooks
- Implement A/B testing and user segmentation strategies to increase email click rate by 120%
- Applied Excel formulas and functions to clean, format, and prepare pitch judging spreadsheets

Avira Health

Operations Intern

San Diego, CA

Aug. 2025- present

- Assist with regulatory affairs and operational tasks for a venture-backed femtech startup, including FDA 510(k) submission preparation, predicate device analysis, drafting technical documents, invoice management, and IP review

Data Science Student Society

Data Science Consultant

La Jolla, CA

Apr. 2025- June 2025

- Cleaned and analyzed waste collection data for Solana Center for Environmental Innovation, in a cross-functional team of project managers and data analysts, culminating in 15 minute final presentation with key stakeholders
- Performed exploratory data analysis and data visualization using Pandas, Seaborn, Matplotlib

PROJECTS

Personal Youtube Analytics

Data Analyst

Dec. 2025

- Built an end-to-end analytics pipeline to process and analyze real-world YouTube watch-history data using Python, Natural Language Processing (TF-IDF, n-grams), and SQL queries to uncover viewing behavior trends
- Developed an interactive dashboard in Tableau with dynamic filters, calculated fields, table calculations, LOD calculations, and KPI views to track year-over-year trends, top content categories, and viewing behavior insights, published to Tableau Public

Airbnb Case Study

Data Analyst

Aug. 2024

- Utilized Tableau Desktop and Tableau Prep Builder to create 10+ dashboards, storybook and slide deck analyzing the cost of hosting new Airbnb property in New York City, culminating in a 3 minute recorded case study

RESEARCH EXPERIENCE

IMPACT Lab at UCSD

HCI Student Researcher

La Jolla, CA

Jan. 2025- June 2025

- Researched the impact of ‘beautiful data visualizations’ on trustworthiness and ‘sharing behaviors’, performed literature reviews, processed videos for experimental use, performed data analysis in R, webscraped 200+ reddit posts
