

Nuraiym Mirbekova

925-528-6312 | nmirbekova@ucsd.edu | San Diego, CA | [Linkedin](#)

EDUCATION

University of California, San Diego, San Diego, CA
Bachelor of Science, Data Science

Sep 2025 - May 2027

WORK EXPERIENCE

Cash2u, mobile application startup providing installment payments
Data Analyst intern

Jun 2025 - Aug 2025

- Cleaned, labeled, and validated 50,000+ transactional and user-activity records using Python and SQL to support operational analytics and modeling pipelines.
- Analyzed user behavior and repayment patterns to surface efficiency gaps and risk signals in automated decision workflows, delivering concise insights to cross-functional stakeholders.
- Built operational metrics and visual dashboards in Python (Matplotlib, Seaborn) to monitor usage, delinquency, and system performance.

UCSD, Department of Information Technology Services
Kuali Build Support Technician

Dec 2025 - Present

- Supported data workflows, integrations, and automated processes across departments.
- Investigated data quality issues and validated operational datasets with stakeholders.

PROJECTS

Loan Applications Analytics

Jan 2026 - Present

DSC80 Course Project | Python, Pandas, NumPy, Plotly

- Built data cleaning and feature pipelines for real-world loan applications, including text normalization, date parsing, and categorical standardization.
- Created interactive dashboards to track interest rates, credit score segments, and loan terms across borrower groups.
- Applied correlation analysis and permutation tests to compare operational performance across groups and assess missing data patterns.

Calorie Deficit Prediction Model

Feb 2025 - Present

Personal Project | Python, Machine Learning, XGBoost, Core ML, Data Analysis

- Built and evaluated a regression pipeline on real-world behavioral and health data, using MAE, RMSE, and R^2 to guide feature and model iteration.
- Created performance and error analysis dashboards to support model improvement and deployment.

LEADERSHIP EXPERIENCE

Women in Computer Science, a student-led organization at Diablo Valley College
President

Aug 2024 - May 2025

- Led and coordinated a 40+ member technical organization focused on machine learning, data analytics, and software engineering.

TECHNICAL SKILLS

Languages & libraries: SQL, Python, Java, C++, HTML/CSS, Swift, Pandas, NumPy, Matplotlib, Scikit-Learn, Seaborn, XGBoost, Core ML tools

Frameworks: MS Excel/Word, React Native, Flutter, Node.js, Material-UI, FastAPI, JUnit

Developer Tools: DBeaver, Tableau, Git, Figma, Visual Studio, Matlab, Jupyter Notebook, AdobeXD
