PROFESSIONAL SUMMARY

AI automation consultant and digital marketer helping local businesses grow through AI-powered sales systems, paid ads, web builds, and content marketing. Founder of ToppleAI — an all-in-one sales and marketing platform serving local service businesses. Co-founder of AfterImage Studio, a fan-made indie animation project. Experienced in vibe coding AI-powered apps and games. Second-year student at UC San Diego (third-year standing). Fluent in Cantonese.

EXPERIENCE

Founder & CEO | ToppleAI 2023 – Present

- Built and run an all-in-one AI sales & marketing platform for local service businesses (martial arts, gyms, roofing, dental, med spas, landscaping, and more).
- Services include: high-converting website builds, automated lead follow-up via SMS/email/voicemail drops, AI chatbots, appointment booking systems, Google & Facebook review funnels, and 100+ directory listings.
- Manage full client pipeline: prospecting, onboarding, service delivery, and retention. Priced at \$297/month with no long-term contracts.
- Website: site.toppleai.com

Digital Marketing & Ads Manager | Anna Tailor Cleaners (Convoy, San Diego) 2023 – Present

- Built and manage the business website (annatailor.com) for a local alterations shop in the Convoy district.
- Ran Google and Meta ad campaigns that drove a measurable increase in high-value customers — particularly wedding dress alterations.
- Executed re-activation campaigns and review campaigns to grow repeat business and online reputation.

Web, Social Media & Marketing Manager | Body by Discipline Boxing Gym 2023 – Present

- Manage website, social media content, and digital marketing for a local boxing gym (bodybydiscipline.com).
- Optimize Google My Business presence and coordinate online/offline brand campaigns to drive membership growth.

Email Marketing Manager | Patrice C. Baker — Women's Coaching 2023 – 2025

- Managed weekly email newsletters via ConvertKit for a coach serving women over 50.
- Wrote and scheduled consistent content to grow and nurture the subscriber audience.

Game Programmer & Co-founder | Galaxy Games 2022 – Present

- Co-founded an indie game studio building first-person shooters, platformers, and experimental game concepts.
- Delegated tasks and brought in new contributors to grow the team.

PROJECTS

Hand Duel MVP | Personal Project Feb 2026

- Built a real-time 1v1 multiplayer dueling game with Mediapipe hand tracking and AI vision gesture recognition — flicking a wrist throws shurikens, head movements trigger directional dodges, and turning the palm while clenching a fist activates a block.
- Integrated decision-based gameplay logic that maps physical gestures to in-game combat actions in real time.
- Optimized for smooth multiplayer performance via WebSocket with room invite links, spectator mode, and HP/STM/BLK/ATK stat tracking.

AI-Powered Task Management App | Personal Project Jan 2026

- Built a personalized AI-powered time management app for my mom, designed around her everyday struggles with scheduling and task prioritization.
- Features voice-based interaction with an AI that schedules visually intuitive reminders, an Eisenhower Matrix for task prioritization, and seamless English-to-Cantonese language switching.
- UI intentionally minimal with large elements — accessible for users not comfortable navigating complex interfaces.

AfterImage Studio — Co-founder | Indie Animation / Fan Project 2025

- Co-founded AfterImage Studio, a fan-made Sonic anime project supporting indie animation.
- Contributed to early creative direction and project launch. YouTube: youtube.com/watch?v=iQQ24i2Slx0

Sonic Cosmos | Fan Game — Unreal Engine / Mugen 2024

- Worked on a fan-made Sonic game using Unreal Engine and Mugen engine during senior year of high school.

VR Training Application | Engineering Academy Capstone 2024

- Developed a VR training app for an engineering makerspace to simulate hands-on equipment use.

EDUCATION

University of California, San Diego (UCSD) | 2nd Year, 3rd-Year Standing | 2024 – Present

Google Skillshop — Google My Business Certified | 2023

- Certified in customer engagement, profile optimization, and bulk management via Google My Business.
