Experience

June 2023 - August 2025

Volunteer Labor | Blindspot Collective

- Worked behind the scenes on several theatre productions to create sets and provided technical support for Projections and Sound Designers

April 2025

ACM DiamondHacks 2025

- Learned and applied programming skills to contribute to the project "PRISM"
- Though partially unfinished, I used the MANIM animation library to create procedurally generated instructional videos for algebra and trigonometry concepts

Fall 2025 - Present

SD Mesa Computer Science Club President

- Lead the Computer Science Club in the execution of several projects and workshops
- Applied Web Development, JavaScript, and Linux skills to manage the club's web server and add features to our website.

Activities

- Brackeys Game Jam 2023
- Computer Science Club Member 2024
