PROFESSIONAL EXPERIENCE

AT&T

Dallas, TX

Incoming Data Engineering Intern

Jun 2026 (Expected)

UC San Diego Women's Tennis

La Jolla, CA

Lead Data Analyst

Jan 2026 - Present

- Leading the development of the first data-driven performance analytics system for UCSD Tennis, transforming match film into actionable insights for coaches and players and supporting decision-making
- Designing and executing manual and computer vision-assisted data collection pipelines (OpenCV court detection) to metrics on early rally; building interactive dashboards to visualize player tendencies

Brain Corp

San Diego, CA

Product Management Intern

Jun 2025 - Sep 2025

- Designed and prototyping computer vision powered features using Python in order to optimize navigation routes for shoppers, in-store pickers and gig workers, increasing efficiency and reducing human error
- Initiated and managing an end-to-end Agile product lifecycle, from PRD creation to iterative prototyping
- Integrating data streams from LiDAR, VSLAM, and 3D RGB into the product stack to address safety and compliance in autonomous navigation for a retail and warehouse robotics market valued at over \$36B

Alameda County Information Technology Department

Oakland, CA

Software Development Intern

Jun 2023 - Aug 2023

- Developed a backend service for the Treasurer-Tax Collector's office using Aspose API, C#, PHP, and .NET to automate generation of tax delinquency notices, saving over 40,000 pages of printed documents annually
- Delivered code within two-week Agile sprints under SCRUM framework; completed QA testing and project handoff ahead of deadline while integrating all stakeholders' feedback into the UI/UX adjustments

PROJECTS

LLM Benchmarking System | Triton Consulting Group, Senior Associate

Jun 2025 - August 2025

- Designed a benchmarking framework comparing Gemma, Llama, and Starling LLMs using ROUGE-L and BERTScore to evaluate definition-generation accuracy across 500+ technology-related terms
- Built Python scripts to evaluate outputs and collaborated on a unified evaluation with standardized output
- Produced insights into model strengths and trade-offs for internal client-readiness assessments

Consumer Sentiment Analysis | Beats by Dre, Data Analysis Extern

Nov 2024 - Jan 2025

- Conducted competitor analysis and NLP sentiment analysis on 10,000+ customer reviews using Python and Pandas; identified product quality trends and UX concerns across the brand portfolio.
- Delivered a Claude Artifact data dashboard summarizing 5 key consumer insights and sentiment metrics; recommended KPI-driven actions that reduced negative reviews by 12%
