La Jolla, CA | +1 (619) 372 7388 | spunjabi@ucsd.edu | <https://www.linkedin.com/in/shivpunjabi>

EDUCATION

University of California, San Diego

Bachelor of Science – Economics, Minor in Finance

San Diego, CA

Expected June 2028

- Cumulative GPA: 3.56/4.00
- Relevant Coursework: Micro/Macro Economics, Financial/Managerial Accounting, Calculus III, Management Class for Personal Finances.

PROFESSIONAL EXPERIENCE

The Grounding Box

Co-Founder

San Diego, USA

June 2025 - February 2026

- Co-founded a startup building a compact, multi-sensory toolkit designed to help users manage anxiety and panic attacks in real time
- Validated the problem through 30+ interviews with students and mental health practitioners, paired with competitor benchmarking of existing anxiety and wellness tools, to identify unmet needs around immediacy, ease of use, and real-time effectiveness during acute stress
- Led early product design and iteration, balancing 3 core design constraints (usability, portability, and sensory effectiveness), by translating user feedback into changes in feature selection, form factor, and usage flow to improve speed and ease of use
- Selected for UC San Diego's Blackstone LaunchPad and StartR Stage 1 programs, using mentor feedback to refine customer focus, value proposition, and next development milestones

Ernst & Young (EY) - Climate Change and Sustainability Services (CCaSS)

ESG Research Intern

Mumbai, India

July 2025 – September 2025

- Supported ESG and climate risk advisory across 8 client engagements by researching sector-specific transition risks and regulatory requirements, translating research into structured inputs for client decks and internal recommendations
- Analyzed decarbonization pathways for 15+ rural and development financial institutions by mapping emissions drivers across lending and operations and evaluating feasible levers within cost and policy constraints to inform client strategy recommendations
- Benchmarked climate risk and ESG integration practices across 10+ public sector undertakings and private sector banks, developing structured comparison matrices that mapped maturity gaps and matched feasible actions to each institution's risk profile
- Reviewed 30+ client disclosures against major ESG frameworks (SBTi, ISO, CDP, SEBI BRSR) and conducted execution-focused research on zero-waste certifications and climate-tech incubation models to strengthen client sustainability recommendations
- Synthesized 10+ policy, and project documents, preparing RFP inputs, and report drafts focused on identifying green investment opportunities and pathways for issuing and deploying green bonds in Southeast Asia for member organizations of the World Bank Group

360 One Wealth, Young Leaders' Program

Summer Intern

Mumbai, India

June 2024

- Supported private wealth management teams across equity, fixed income, and alternative assets by participating in portfolio construction discussions for UHNW client portfolios, linking client objectives, risk tolerance, and market conditions to allocation decisions
- Analyzed 5+ UHNW client advisory cases involving tax structuring and estate planning, assessing how regulatory, legal, and intergenerational constraints shape long-term wealth preservation strategies
- Reviewed daily market updates, investment notes, and portfolio positioning materials to connect macroeconomic trends such as interest rate movements and market cycles with asset allocation and risk management decisions
- Evaluated early-stage investment opportunities through multiple founder and investor workshops, focusing on founder quality, business fundamentals, and product-market fit from an investor's perspective

EXTRA CURRICULAR EXPERIENCE

Sustainable Investment Group (SIG) – UC San Diego

Sustainability Analyst

San Diego, USA

April 2025 - Present

- Built ESG-integrated equity theses by combining financial analysis with ESG risk factors to support buy/sell/hold recommendations.
- Worked within a 5-member analyst team to develop and pitch portfolio allocation strategies to a student-run investment committee
- Analyzed corporate sustainability disclosures (CDP, TNFD, GRI) to assess long-term risk exposure and potential valuation impacts
- Designed a sustainable finance model for NYC building retrofits that aligned investor returns with emissions reduction outcomes
- Presented the proposal at the Sustainability Showcase, earning runner-up based on feasibility, capital structure, and implementation clarity

HealthLink – UC San Diego

VP External Relations

San Diego, USA

June 2025 - Present

- Planned medtech entrepreneurship events designed to help students move from problem identification to early-stage solutions
- Organized speaker sessions and workshops with founders, and clinicians to expose students to real-world healthcare and startup challenges
- Structured HealthLink as a pipeline organization by developing recurring programming that connected ideation, mentorship, and execution
- Coordinated outreach, logistics, and partnerships to drive student participation and maintain continuity across events
