Shourya Vermani

408-887-7427 | sendtoshourya@gmail.com

Education

University of California, Santa Cruz — Santa Cruz, CA
B.S. in Bioinformatics — *Sep. 2025 – Jun. 2029*

American High School — Fremont, CA
High School Diploma — *Aug. 2021 – May 2025*

Experience

AI Fellow — Feb 2026 – Present
Handshake AI Fellowship — *Remote*

- Train and evaluate machine learning models through structured feedback, data labeling, and model validation tasks.
- Analyze AI outputs and provide iterative improvements to enhance model accuracy and reliability.

Los Positas College Biotechnology Bootcamps — Jun. 2023
Los Positas College — *Livermore, CA*

- Completed introductory and intermediate biotechnology training focused on laboratory techniques and experimentation.

UCB Bioinspired Design — Jun. 2023
University of California, Berkeley — *Berkeley, CA*

- Participated in a UC Berkeley program studying biological systems and their applications to engineering design.

Projects

UCSC BioHacks Hackathon — First Place, Cancer Track — Mar. 2026

- Won first place in the Cancer Track for building a computational cancer genomics project.
- Developed a tool to analyze tumor mutation data using Variant Allele Frequency (VAF) to reconstruct cancer evolution.
- Implemented algorithms to model clonal mutation progression and tumor heterogeneity.

Bay Area Leeds Biotech Program Competition — First Place, Improving zCRISPR — Jul. 2024

- Won first place for presenting a biotechnology-focused research project on improving CRISPR-based gene editing systems.
- Designed an improved CRISPR framework by leveraging Cas9 and Cas12 enzymes to explore more precise and efficient gene editing strategies.
- Analyzed how combining different CRISPR-associated nucleases could enhance targeting accuracy and reduce off-target genetic modifications.

Technical Skills

Languages: Python (Working Proficiency)
