EXPERIENCE

Software Team Member - Triton Neurotech, San Diego, CA (Sept 2025 -Present)

- Contributing to software development for a neuroprosthetic arm project focused on human-machine interaction
- Implementing and testing control logic and data handling components supporting prosthetic movement
- Collaborating with interdisciplinary teams across hardware, neuroscience, and mechanical subgroups
- Using Python for prototyping, debugging, and validating software modules

Robotics Programmer - BHS Robotics Club (Feb 2023 - May 2024)

- Programmed vision sensors for object detection and motion tracking using Python (code maintained on GitHub)
- Developed autonomous robot motion and task execution using Python and block-based coding
- Troubleshoot and resolved software issues during design, testing, and competition phases
- Competed in VEX Robotics tournaments, advancing to the state level

JROTC

- Built and tested a professional drone.

Data Entry & Lab Assistant - BIOMIX, Bakersfield, CA (Sept 2022 - June 2024)

- Maintained and updated Excel spreadsheets for inventory and order tracking
- Assisted with labeling, filling, and packaging of laboratory products
- Supported efficient laboratory workflow in a fast-paced environment
