Houston, TX | Bachelor of Science in Computer Science – Expected May 2027

Eligible for full-time internship Summer 2026

SUMMARY

Computer Science student passionate about building impactful technology through hackathons and rapid prototyping. Experienced in full-stack development using React, Node.js, and Python, with projects involving AI tools, OCR automation, and scalable backend systems. Active hackathon participant and award-winning datathon competitor (2nd place) with strong skills in collaboration, creative problem solving, and building functional prototypes under tight deadlines.

TECHNICAL SKILLS

- **Languages:** JavaScript (ES6+), Python, Java, C, SQL, HTML, CSS
- **Frameworks & Tools:** React, Node.js, Git/GitHub, REST APIs, PostgreSQL, Prisma ORM, Tesseract OCR, JIRA
- **Core Concepts:**
Data Structures & Algorithms, Object-Oriented Programming, Software Development Lifecycle (SDLC), Backend Architecture, API Design, Responsive UI Design, Debugging

TECHNICAL PROJECTS & HACKATHONS

1. Rice Datathon 2026 / 2nd Place (Education Track)

- Placed 2nd among competing teams in the Education Track at Rice Datathon.
- Built an AI-assisted system designed to improve alignment between educational content and learning objectives.
- Collaborated in a fast-paced data science competition involving data analysis and machine learning concepts.

2. United Hacks V6 — Hackathon Participant (Human Interaction Track) January 2026

- Participated in a 48-hour hackathon sprint, collaborating with teammates to design and build a human-centered web application.

3. Smart Study Planner – “Iremind” Full-Stack Web Application | React, Node.js, JWT, Prisma, PostgreSQL

- Designed and developed a productivity web application to help students manage schedules, tasks, and study plans.
- Implemented secure authentication using JWT and bcrypt.

4. Searchable PDF Generator (OCR Application) Node.js, PostgreSQL, Tesseract OCR

- Built an OCR automation pipeline that converts images into searchable PDF documents.
- Implemented REST APIs for file uploads and text extraction.

EXPERIENCE & LEADERSHIP

Executive Assistant / Computer Science Department North American University | Houston, TX
September 2024 – Present

- Collaborate with faculty on academic technology initiatives and department projects.
Provide technical assistance to students regarding software tools and digital platforms.

Vice President / ACM-W (Women in Computing) August 2025 – Present

- Help organize workshops, technical talks, and events promoting women in technology.
Encourage student participation in hackathons and collaborative coding events.

President / Art Club August 2024 – Present

- Lead a student organization of 20+ members and coordinate creative campus events.
Manage event planning, logistics, and communication across departments.

EDUCATION

Bachelor of Science in Computer Science
North American University / Houston, TX

Expected May 2027

Relevant Coursework:

Data Structures & Algorithms, Software Engineering, Web Development, Database Systems

CERTIFICATIONS

- Frontend Web Development Certificate
- Initial Learning Path Certification
- United Hacks V6 Hackathon Participation Certificate
