

Xavier Lu

xllu@ucsd.edu ❖ (404) 980-8352 ❖ La Jolla, CA

EDUCATION

University of California, San Diego La Jolla, CA

Sep 2024 – Expected Jun 2028

- B.S. in Cognitive Science — Machine Learning Specialization
 - Additional interest: Structural Engineering, Philosophy, and Environmental Systems
 - Current Relevant Coursework: Java Python programming, Matlab, Human Anatomy and Physiology, Neurobiology of Cognition, Calculus, Linear Algebra.

Peachtree Ridge High School Suwanee, GA

Aug 2021 – Jan 2024

- Completed 18 college-level courses through AP and dual enrollment. Graduated in the top 10% of the class. Participated in STEM-focused extracurriculars including robotics and science competitions. Coursework included a particular focus on Abnormal Psychology, Clinical Nursing, and Remote Sensing.

EXPERIENCE

Paid Internship with Physics Professor at University of Georgia

Oct 2022 – Dec 2022

Student Intern

Athens, Georgia

- Created visual physics animations using software Blender to enhance student understanding of complex physics concepts.
- Gained university experience, fast learning and adapting to software and productivity tools.
- Develop communication and collaboration skills with university faculty and peers.

Internship at Cushman & Wakefield

Jun 2024 – Aug 2024

Student Intern

Beijing, China

- Gaining knowledge in the real estate and commercial property industry with a focus on Beijing and Tokyo.
- Developing analytical and research skills by assessing market trends and property data.
- Understanding company structures and communication guidelines through participating in business negotiations and group meetings.
- On-site investigation of real estate site planning.

Study abroad at National University of Taiwan

Aug 2025 – Sep 2025

Study Abroad

Taipei, Taiwan

- two upper division SE164, SE167 on sensors, data acquisition, signal processing and spectral analysis.
- Toured National seismic research facility and TSMC (semiconductor). Gained valuable knowledge of the industry from professionals
- Adapt and immersed into a new cultural environment, gaining a broadened global perspective and form friendship across cultural barriers. Learning to initiative, be more organized and flexible by trip planning and adapt to unforeseen circumstances.
- Conducted research, data analysis using MATLAB, better interpersonal skills and work ethic through group project

INTERESTED LABS PROJECT/RESEARCH

- Bilingual, Language Acquisition, HCI lab.
- I am interested in interdisciplinary research at the intersection of cognitive science, machine learning, and human–computer interaction. My interests include bilingual language acquisition, computational modeling of cognition, and user-centered system design. I am particularly drawn to research that combines behavioral data, computational methods, and real-world applications in learning and communication.

LEADERSHIP/INVOLVEMENT

Current Student Organization involvements: Cognitive Science Student Association, United Taiwanese Association, Tennis club, Society of Civil and Structural Engineers.

Past Student Organization involvements: Taekwondo, Badminton, Table Tennis, Chinese Union, Intermission Orchestra, Bohua Academy Youth Orchestra, Five Millennia Orchestra, CALPIRG.

AWARD/CERTIFICATES

CPR certified

SKILLS

Technical Skills: Onshape, Photoshop, Blender, Adobe Applications, Java, python, web design.

Soft Skills: Collaborative, Adaptive, Communication.

Language Skills: Bilingual in Mandarin and English
