

Yang Hu

+1 (619) 953-9598 | yah026@ucsd.edu | La Jolla, CA 92092

SKILLS

- LLMs, Transformers, JAVA, Python, C++, C, MySQL, HTML, CSS

SCHOLARSHIPS

UC Scholars Summer Research Program, June 2025 – September 2025

EXPERIENCES

Research Intern – Protein Language Modeling

Chavez Lab at UCSD, June 2024 – Current

- Curated and preprocessed data from earlier work of my colleagues.
- Collected and deployed various recently developed chemical models to benchmark their performance for preliminary analysis
- Developing a deep learning LLM to discover viral protease inhibitors from high-throughput screens.
- Technologies: Python, PyTorch

Member of ACM Project – AI Web APP Development

ACM UCSD, October 2023 – February 2024

- Developed a Web APP that turn travel guide YouTube videos into a travel plan with route on a map.
- Technologies: TensorFlow, Flask (API), SpaCy (LLM)
- I contributed over 60% of the code, including most of the frontend webapp and hotel data extraction
- Repository: <https://github.com/acmucsd-projects/fa23-ai-team-byte-benders>

Development Intern

Quanyuantang Ltd, July 2023 – September 2023

- Built a database management web app with python backend, deployed on a Linux server
- It manages over 100 million rows of data and is 30% faster than the old data monitor

Data Analyst Intern

Green Meadow Waldorf School, March 2023 – April 2023

- Cleaned and visualized alumni data using Python, Pandas, MySQL, etc.
- Used AWS services like DynamoDB for storing and managing data

EDUCATION

Bachelor of Science (B.S.): Mathematics - Computer Science

University of California, San Diego, La Jolla, CA, September 2023 - Current

- Cumulative GPA: 3.96
- Expected to graduate in Spring 2027

LANGUAGES

English (Fluent)

Chinese Mandarin (Native)

Japanese (Intermediate)
