

Inno Li

📍 La Jolla, CA | ☎ 858-305-0126 | ✉ yil167@ucsd.edu | 🌐 [linkedin.com/in/yinuo-li-inno](https://www.linkedin.com/in/yinuo-li-inno)

EDUCATION

University of California, San Diego

San Diego, CA

M.S. in Data Science | *GPA: 3.9/4.0*

Sept 2025 – June 2027 (Expected)

- **Courses:** Statistical Models, Causal Inference, Machine Learning, Data Mining, NLP, Scalable Data Systems (NoSQL)

B.S. in Mathematics-Economics, Finance Minor | *GPA: 3.8/4.0*

Sept 2021 – June 2025

- **Honors:** Provost Honors*7 quarters, Department Honors with Highest Distinction

WORK EXPERIENCE

CayKnight.AI

Menlo Park, CA

Data Science Intern

July 2024 – Present

- **ML Algorithm:** Engineered a supervised IMU-based pipeline for dog activity recognition, covering data ingestion, feature engineering, model training, and ablation study; optimized temporal features (+4% F1 score) (manuscript in preparation)
- **LLM Training:** Collaborated on a prototype veterinary AI agent using **RAG** knowledge base of pet health; enabled context-aware responses by **LlamaIndex**, **HuggingFace Llama 3.1**, and sentence-transformer embeddings
- **Decision Validation:** Validated core algorithm design choices through offline experiments; visualized feature-wise performance trends with Matplotlib to support patent drafting & leadership decisions on business objectives (MVP scope)

Helport AI

San Diego, CA

Data Analytics Intern

Sept 2024 – Dec 2024

- **Experimental Design:** Designed controlled **A/B test** for Hawaii government call-center (eWorld Project); defined outcome & guardrail metrics; applied causal inference to quantify AI impact on agent throughput and operational efficiency
- **Executive Dashboards:** Built internal **Tableau** dashboards to monitor production input, decision distribution shifts, and precision-oriented business risk indicators, enabling early detection of potential degradation during the trial operation
- **Product Deployment:** Partnered with PMs to refine routing logic, retrieval templates, and agent-assist triggering rules based on real-time dashboard signals, improving operational decision accuracy by **26%** over ~400 hours of operations

First Capital Securities

Shenzhen, China

Business Intelligence Analytics Intern

July 2023 – Sept 2023

- **Automated Reporting:** Built interactive **Power BI** dashboards with DAX-based metrics to monitor AUM, fund allocation, and performance across **50+** PE funds; automated weekly reporting and reduced manual preparation time by **20%**
- **Resource Allocation Analysis:** Conducted ROIC-focused analyses at fund and asset levels using **Python** and Power BI; delivered data-driven insights that informed portfolio prioritization and capital allocation decisions

SELECTED PROJECT & RESEARCH EXPERIENCE

Weekly Mental Health Coach - AI-Driven Predictive Analytics & Recommendation System

Oct 2025 – Jan 2026

- **Predictive Modeling:** Developed **Random Forest** and **LSTM**-based models on **2,289** EMA responses across **49** users; engineered **34** time-windowed behavioral features and achieved **0.71** F1-score in stress classification via cross-validation
- **Data Analysis & Visualization:** Performed **EDA** and feature importance evaluation with **Python**; built performance dashboards and confusion matrices to communicate model insights to cross-functional team members
- **AI Application:** Integrated RAG-enhanced **LLM** (Vertex AI Gemini) to generate personalized wellness messages from model outputs; deployed **TensorFlow Lite** models for scalable, privacy-preserving on-device inference

UCSD Economics Research Lab - Research Assistant

Dec 2023 – July 2024

- **Database Management:** Constructed a structured relational database using **MySQL**; Integrated U.S. state-level anti-LGBTQIA+ legislations (2015-2024) with media coverage, enabling longitudinal and cross-source analysis
- **Sentiment Analysis:** Implemented a multithreaded **NLP analytics** pipeline to process **52,000+** news articles in XML format, perform feature extraction, and compute document-level sentiment scores via VADER

SKILLS

- **Programming Languages:** Python (pandas, NumPy, SciPy), SQL, R (dplyr), Stata, Java, Shell, MATLAB
- **Machine Learning:** scikit-learn; Regression, Decision Trees, Random Forests, Gradient Boosting; Time Series
- **DL & AI:** PyTorch, TensorFlow/Keras; Neural Networks; OpenAI API, Cursor, Claude, Gemini, Prompt Engineering
- **Business Intelligence & Financial Analytics:** Tableau, Power BI, MS Office Suite(Advanced MS Excel); Accounting
- **Platforms & Tools:** Git/GitHub, VS Code, IntelliJ, Linux, AWS, Spark, Android Studio
- **Beyond Work:** Rock climbing (top-rope), Photography, Visual Design (Adobe Creative Suite, Figma)
