

JIAQI JIN

jjj022@ucsd.edu

FIRST YEAR AT UCSD
2025-2029
B.S. DATA SCIENCE

ABOUT ME

Currently in his first weeks of college at UC San Diego, Jiaqi boasts an impressive 0.0 GPA (for now) and is currently on the lookout to be more involved with the people and clubs on campus. He is a Data Science major with interests in business, entrepreneurship, baking, trying not to get lost on the public transit, and is fond of plants and flowers.

EXPERIENCE

Team focused on underwater ROVs. Started as a programmer and developed the entire navigation software as well as PID control using technology such as Arduino, PyGame, Git, but is also familiar with electrical tasks such as soldering. Became software lead 23-24 and vice captain in 24-25.

MATE ROV

Sept. 2022 - May 2025

First year of doing robotics; part of the design sub-team which helped shaped the mechanisms such as the arm and intake of the FRC robot.

Aragon Robotics - FRC

Sept 2021 - Sept 2022

Guided a 3D printing workshop every weekend at the Foster City Library where kids could create their own design using TinkerCAD or find one online, which was then processed and printed. Also helped with grabbing books placed on hold and keeping the library in proper order.

Library Helper and Maker

June 2023 - April 2025

EDUCATION

High School Degree

Aragon High School

San Mateo, CA
Aug 2021 - May 2025

SKILLS

SOFT SKILLS

- Communication
- Leadership
- Willing to learn
- Engaging
- Be my friend!

TECHNICAL SKILLS

- Python
- Arduino (Serial Communication)
- LoRa ESP32 module
- PID controls
- Familiarity with electrical components
- Basic CAD knowledge (Fusion360, OnShape)
