

Alyssa Gong

510-329-5084 | a1gong@ucsd.edu

EDUCATION

Mission San Jose High School

AP Scholar with Distinction

Fremont, CA

Aug. 2021 – June 2025

University of California, San Diego

Bachelor of Science in Data Science

San Diego, CA
Sep. 2025 – Expected June 2029

Relevant Coursework: Principles of Data Science, Introduction to Data Science, Programming/Data Structure for Data Science, Calculus & Analytic Geometry, Linear Algebra, Methods for Statistics and Data Science, AI for Humanities, Introduction to Python, Introduction to C++/Discrete Structures, AP Computer Science A, AP Statistics

EXPERIENCE

Technical Analyst, Triton Consulting Group – Tech Track

January 2026 – Present

- Developing a web-based Case Learning platform enabling timed, section-by-section case practice with typed responses and PDF export.
- Collaborating with team to design interactive workflows that simulate real consulting interviews.
- Preparing and scoping technical solutions for Spring 2026 client engagements.

Videographer/Marketer, Data Science Student Society

September 2025 – Present

- Produced short- and long-form video content to increase engagement and highlight professional club events.
- Identify potential sponsors for DataHacks, the club's largest hackathon.
- Strategize social media promotion and coordinate logistics for the DataHacks hackathon.

Marketer, ACM AI

September 2025 – Present

- Create flyers and social media content to promote club events and AI learning.

PROJECTS

Scoliosis AI | *PyTorch, Flask, HTML/CSS, GitHub, Render*

June 2024 – Present

- Trained and evaluated KNN and CNN models for scoliosis detection using image data.
- Applied data preprocessing and augmentation to improve model generalization.
- Implemented CNN architectures with CBAM attention to focus on spinal curvature.
- Deployed the model via a Flask backend with an HTML/CSS frontend, available at <https://scoliosisai.org/>.
- Filmed and edited a promotional video to spread awareness on early scoliosis detection.

Collegeboard Trend Analysis | *Python, GitHub*

January 2026 – Present

- Cleaned and wrangled multi-year AP and admissions datasets for state-level analysis.
- Conducted time series analysis of AP participation and pass rates pre- and post-subsidy.
- Designing an interactive dashboard to visualize funding tiers and longitudinal trends.
- Developing an ROI calculator to estimate academic value of AP exam subsidies.

Divide the Day | *Python, HTML/CSS, GitHub*

September 2025 – December 2025

- Developed an interactive educational game that teaches fractions through storytelling.
- Designed the user interface in Figma and implemented layouts using HTML and CSS.
- Implemented Python to generate randomized fraction problems, process user input, and validate responses.

TECHNICAL SKILLS

Languages: Python, C/C++, Java, JavaScript, HTML/CSS, R

Frameworks: PyTorch, Flask

Developer Tools: Git, GitHub (LFS), VS Code, Render

Libraries: babypandas, NumPy, Grad-CAM, CBAM
