EDUCATION

University of California, San Diego – Halicioğlu Data Science Institute

June 2027

Bachelor of Science in Data Science with Artificial Intelligence Concentration

- **Relevant Coursework:** Data Structures and Algorithms (TA), Principles of Data Science, Machine Learning, Mathematic Theory in ML (Empirical Risk Minimization, Optimization, Regression/Classification, A/B Testing), Statistics, Database Management (Relational Database Systems, SQL, Schema Design), Systems for Scalable Analytics - (MapReduce/Hadoop, Apache Spark, Dask)

SKILLS

- **Amazon AWS Certification:** AWS AI Practitioner & **Microsoft Certification:** Intro to Programming Using Java
- **Google Certifications:** Generative AI Fundamentals, Intro to Large Language Models & **Databricks** Fundamentals Certification
- **Libraries:** Pandas, NumPy, Matplotlib, Seaborn, Scikit-Learn, OpenCV, TensorFlow, PyTorch, CrewAI, Keras
- **Languages:** Python, Java, JavaScript, TypeScript, PostgreSQL, C++ & **Frameworks:** React JS, FastAPI, LangChain, Flask, Node JS
- **Tools:** AWS AI (EC2, S3, SageMaker, Bedrock), Microsoft Azure, ADK, Supabase, Docker, Kubernetes, Git, Linux, Databricks

PROFESSIONAL EXPERIENCE

AI Engineer Intern – Customer Success Team @ IBM

June 2025 - Present

- **Skills:** watsonx, watsonx.ai, Agentic AI, MCP Servers, Elasticsearch, Agents, AI Workflow Automation, IBM Cloud
- Led a CSM **Agentic AI workflow** by integrating cross-platform tools with **MCP Servers, Llama 3.3-70B**, enabling intelligent task automation & generating **\$1.8M ROI** in annual savings, freeing time (45 min) for deeper client engagement & faster value realization.
- Designed an Employee Support Agent using watsonx Orchestrate & watsonx.ai, powered by **RAG** and **Elasticsearch** for internal technical documentation, enabling task automation & driving a **15%** boost in daily productivity across support operations.

Undergraduate Researcher @ UC San Diego [DSTL](#) Lab

October 2024 - Present

- **Skills:** JupyterLab Extension, Jupyter Notebooks, TypeScript, LangChain, CrewAI, Claude 3.5 Sonnet, Human-AI Interaction
- Deployed **Multi-Agent system** architecture in JupyterLab extension using CrewAI, LangChain, and **Claude 3.5 Sonnet** to automate contextual, expert-level suggestions, accelerating EDA workflows by **65%** across pharmaceutical, finance, and biotech domains.
- **Co-authored** a research paper on Human-Computer Interaction, submitted to **CHI Journal**, showcasing augmentation techniques that streamline EDA, accelerate data understanding for unfamiliar datasets, reduce manual search, impacting millions of data scientists.

ML Engineer @ Break Through Tech AI UCLA

June 2024 - May 2025

- **Skills:** Recommender Systems, SVD, MCDM, Google BERT model, TensorFlow, NLP, GNN, XGBoost, Deep Learning
- Developed a **Recommendation System** for Cohere Commerce using SVD & MCDM models, matrix factorization in **TensorFlow** improving product relevance by **35%**, transformed reviews with BERT for NLP enabling deeper customer preference modeling.
- Achieved **Top 25%** globally & **Top 3** among 30+ UCLA teams in WiDS 2025 Kaggle Datathon, detecting ADHD diagnosis in females using fMRI data by training a **Graph Neural Network (GNN)**, GCN & XGBoost, reaching **73.21%** classification accuracy.

ML Consultant @ Alama AI (Startup) & Data Science Student Society

April 2024 - June 2024

- **Skills:** RAG, ChatGPT 3.5, LangChain, ChromaDB, Pinecone, Vector Search, LLMs, Natural Language Processing (NLP)
- Built a chatbot using **ChatGPT 3.5** & **RAG** pipeline, streamlining academic advising for **350+** students with context-aware response.
- Boosted retrieval speed by **25%** by integrating **LangChain**, **ChromaDB** & **Pinecone**, reducing **40%** workload for academic advisors.

PROJECT EXPERIENCE

[Enterprise AI Deep Research Agent & Workflow Automation System \(Production\)](#)

- **Skills:** Deep Research Agents, MCP Servers, A2A Protocol, OpenAI ADK, LangChain, Microsoft Graph API, ServiceNow MCP
- Created a **Workflow Automation** processing emails by integrating **Microsoft Graph MCP, ServiceNow MCP** via **A2A protocol**.
- Implemented Deep Research Agent using **OpenAI ADK** with specialized agents for email classification, context-aware research, intent extraction, using LangChain orchestration, achieving **91%** accuracy in automated ticket routing & eliminating **25** hours weekly.

[FitSync](#) (Hackathon 1st Place Winner Project)

- **Skills:** OpenCV, MediaPipe, TensorFlow, FastAPI, React JS, WebSocket, SQL, Supabase, Custom Similarity Algorithm
- Won **1st place** among **50+** teams by developing **real-time** multiplayer fitness app using MediaPipe pose detection and custom similarity algorithm, achieving **95%** pose accuracy and enabling social connection & accessible fitness via Computer Vision.
- Innovated **full-stack** solution with TensorFlow pose analysis, **FastAPI** backend, **React** frontend, and **WebSocket** real-time feedback.

[AWS Cloud-Based SLAM Mapping & Robot Fleet Visualization Platform](#)

- **Skills:** ROS 2, Gazebo, LiDAR, Docker, RViz, AWS (RoboMaker, IoT Core, Lambda, DynamoDB, S3, CloudWatch), AWS CLI
- Engineered **ROS 2 robot** with simulated **LiDAR** for real-time **SLAM** using **Gazebo** & **Docker**, rendered 3D mapping data in RViz
- Produced scalable, cloud-native robotics platform with **AWS IoT Core** for device communication, **Lambda** for telemetry processing, **DynamoDB** and **S3** for data storage, and **CloudWatch** for monitoring warehouses, achieving real-time visualization on a dashboard.

LEADERSHIP & EXTRACURRICULARS

- **Awards:** 1st place Winner DataHacks 2025 Hackathon, Top 3rd team WiDS UCLA 2025 Datathon, 2nd place Pitch Competition 2024
- **Founder of [Byte by Byte](#) Newsletter:** 120+ LinkedIn subscribers read free monthly articles about tech and student advice
- **Activities:** Women In Computing (WIC) **First-Year Committee Lead**, Rewriting the Code (RTC) Member, Member of Amazon's Women of the World, Reboot Scholar, CodePath Student, TAPIA '24 Attendee, Attending **Grace Hopper Celebration (GHC)** '25
