EDUCATION

UC San Diego

Bachelor of Science in Computer Science

La Jolla, CA

Sep. 2025 – June 2029

EXPERIENCE

Software Engineer Intern

AllCode

June 2025 – Sep. 2025

San Francisco, CA

- Leveraged AI to build prototypes for collections and sales.
- Used various AI's including Base44 cursor in order to develop apps that clients had requested. Extensive use of Amazon Q to build products using Supabase, Elastic Beanstalk, Node.js, S3, and React.
- Also, wrote SDK libraries in Perl, Python, Ruby, .Net, and Node to build out development kits to enable client engineers to use the REST API without having to use Postman.
- Built a Shopify store for CloudContact AI, which is AllCode's product.

Information Technology Intern

MKA International

June. 2024 – Aug. 2024

Walnut Creek, CA

- Gained skills in virtualization, becoming proficient with advanced tools like Proxmox and Docker.
- Set-up, configured, and documented a Proxmox backup server for the company.
- Gained skills in wifi/computer network management, and ultimately managed my own small network.

PROJECTS

Debt Collections App |

August 2025

- Developed a full-stack application using Base44 and Amazon Q
- An application that debt collectors can use.
- <https://collections.cloudcontactai.com/>
