

Alice Pham

alp027@ucsd.edu // (346) 653-4438

EDUCATION

University of California San Diego, La Jolla, CA

June 2029

Bachelor of Science in Applied Mathematics (& prospective Data Science)

GPA: 3.83/4.0

Relevant Coursework: Principles of Data Science; Intro to Python; Calculus 1

RELEVANT EXPERIENCE

STEMAZINE | Assistant Editorial Department Head

January 2024 – October 2024

- Used Google Sheets to manage multi-author editorial pipelines
- Reviewed and edited 30+ STEM articles for accuracy, logical consistency, and clarity
- Coordinated deadlines and deliverables across teams, improving on-time publication rates
- Ensured factual integrity and readability of technical content

STEM Today | Editor

January 2023 – September 2024

- Applied precision editing and analytical review to STEM articles, focusing on clarity of data explanations
- Collaborated with writers to refine argument structure and evidence presentation
- Ensured consistency across technical terminology and explanations to improve reader comprehension

The Woodstock Academy | Dorm Prefect

August 2024 – June 2025

- Applied logistical planning, decision-making, and problem-solving skills to coordinate programming for 160+ students
- Organized schedules, resource allocation, and attendance tracking for biweekly events

ENgin Program | Volunteer Tutor

January 2024 – August 2024

- Used structured lesson design and progress tracking to support Ukrainian students in one-on-one tutoring sessions
- Adapted instruction based on learner performance and feedback, improving communication outcomes
- Conducted weekly tutoring sessions, strengthening consistency and measurable progress over time

PROJECTS

'Friends' Sitcom Reboot Modeling | DSC 10

November 2025

- Built and manipulated DataFrames to analyze episode-level sitcom data (dialogue, screen time, ratings)
- Implemented functions and used histograms for data aggregation, visualization, and statistical analysis
- Performed hypothesis testing using simulation, bootstrapping, and permutation tests

Taylor Swift Music Analysis | DSC 10

October 2025

- Implemented custom functions and DataFrames to analyze lyrics and audio-feature datasets
- Used random sampling techniques to generate simulated distributions and resampled datasets
- Built a content-based song recommender and lyric search tools to interpret musical trends using feature similarity

TECHNICAL SKILLS & CERTIFICATIONS

Technical: Python

Languages: Vietnamese (native), Spanish (lower intermediate)
