EDUCATION

University of California, San Diego

Bachelor of Science in Data Science

San Diego, CA

Sep. 2025 – June 2027

Norco College

Associate's in Mathematics

Norco, CA

Jan. 2022 – June 2025

EXPERIENCE

Photographer & Customer Service Assistant

School House Photos

June 2025 – Sept. 2025

Riverside, CA

- Captured senior, yearbook, and cap-and-gown portraits across multiple high schools
- Utilized an internal appointment management system to schedule sessions, import and export photo data, and maintain organized digital records
- Assisted with front-desk operations, including client check-ins, data entry, and workflow coordination

Upward Bound Mentor & Tutor

College Corps

Aug. 2024 – Aug. 2025

Norco, CA

- Tutored high school students in math and science subjects, reinforcing core concepts and strategies
- Adapted explanations to individual learning styles, improving comprehension and engagement
- Collaborated with program staff to track student progress and maintain detailed academic records

Senator of Finance & Activities

Norco College

Oct. 2023 – May 2025

Norco, CA

- Managed and oversaw a student government budget exceeding \$500,000, ensuring equitable allocation across campus clubs
- Reviewed student funding proposals, collaborated with student clubs, and provided fiscal recommendations to the executive board and finance team
- Organized, coordinated, and supported a wide range of campus events, from welcome week programs to cultural celebrations, increasing student participation and campus engagement

PROJECTS

Pulsepanion | Python, Shiny, R

June 2025 - July 2025

- Developed a full-stack R Shiny web app for uploading, analyzing, and visualizing patient health data in real time
- Integrated Python through reticulate for data processing and automated LLM-generated summaries of patient information
- Designed a responsive UI/UX with interactive charts, multilingual support, and automated PDF report exports
- Implemented efficient data pipelines and modular architecture to ensure scalability and maintainable code

TECHNICAL SKILLS

Languages: Java, Python, C/C++, R

Developer Tools: Git, VS Code, Visual Studio, Posit Cloud
