EDUCATION

University of California, San Diego

Bachelor of Science in Data Science

San Diego, CA

September 2024 – (Expected) June 2027

SUMMARY

Data Science undergraduate at UC San Diego with hands-on experience in machine learning, statistical analysis, and data-driven product development. Skilled in Python, Java, and data visualization, with experience building end-to-end ML pipelines and interactive dashboards. Interested in applying data science to ethical AI, marketing, and real-world social impact.

PROJECTS

TubeScope | Python, NumPy, scikit-learn

October 2025 – December 2025

- Built a machine-learning system that predicts multi-day viral YouTube videos using an automated YouTube Data API pipeline, engineered engagement and channel features, and a Random Forest model achieving 70% recall.
- Deployed an interactive Streamlit dashboard with survival analysis visualizations and real-time viral rankings, enabling creators to assess trending video longevity and prioritize promotions.

Protein Content & Recipe Ratings Analysis | Python, NumPy, pandas

November 2025 – December 2025

- Analyzed 80k+ Food.com recipes and 700k+ user reviews using EDA and permutation testing to evaluate the relationship between protein content and ratings; found no significant difference.
- Built regression models to predict recipe protein content using nutritional features and TF-IDF tags, improving test RMSE to ≈ 22 and achieving $R^2=0.75$ with fair performance across recipe types.

LEADERSHIP AND EXPERIENCE

VP Risk Management

November 2025 – Present

Phi Sigma Rho – STEM Sorority, University of California, San Diego

San Diego, CA

- Oversaw chapter risk management policies and procedures to ensure compliance with university and national organization guidelines.
- Led risk prevention efforts for events and activities, promoting member safety, accountability, and responsible conduct

Outreach Chair

January 2025 – Present

UCSD Raas Ruckus - Competitive Raas Dance Team

San Diego, CA

- Planned and coordinated social media posts using Canva, generating 100K+ total impressions and interactions to increase account visibility and engagement.
- Coordinated outreach with board members and external organizations to promote performances, fundraisers, and competitions.

Tutor

September 2025 – Present

Mathnasium - Math Learning Center

Hayward, CA (Remote)

- Provided individualized K-12 math tutoring, analyzing student performance to identify learning gaps and tailor instruction accordingly.
- Monitored progress and refined teaching strategies to support measurable academic improvement.

Student Intern

June 2022 – August 2022

Hakimo AI — AI-Powered Security Systems

Remote

- Collaborated with engineers and interns to identify, debug, and resolve issues in AI-based security monitoring systems.
- Investigated false positives and system errors in AI-powered security workflows, contributing to improved system performance.

TECHNICAL SKILLS

Languages: Java, Python, C/C++, HTML/CSS

Developer Tools: Git, VS Code, Streamlit, Figma

Libraries: pandas, NumPy, Matplotlib, scikit-learn
