
Bill Chen

(858) 386-4610
yuc225@ucsd.edu

Motivated Data Science sophomore seeking to strengthen applied skills, collaborate with peers, and gain hands-on experience in real-world data analysis.

SKILLS

Data analysis, visualization and modeling with Python and Pandas

EDUCATION

University of California, San Diego — B.S. in Data Science

Sep 2024 - Jun 2028

Relevant Coursework: Programming, Data Structures and Algorithms, Linear Algebra, Vector Calculus, Data Analysis, Modeling and Probability

PROJECTS

Course Project:

Linear Regression Modeling Competition — DSC 40A (Theoretical Foundations of Data Science) — Course Project (Python, Pandas)

Nov 2025 - Dec 2025

- Participated in a course-wide linear regression modeling challenge with Python
- Model training and testing
- Developed model with second lowest MSE among all participants
