## EDUCATION

2025-Present University of California, San Diego  
2023-2025 Diablo Valley College  
2020-2023 Shenzhen Vanke Meisha Academy

## MAJOR

Data Science B.S.  
Economics B.A.

## LANGUAGE

English  
Chinese (Mandarin)

## WORK EXPERIENCE & ACTIVITIES

### ChinaRoad, R&D Intern

June 2025 - August 2025

- Built and optimized SQL scripts for PP Parking's operational KPIs, consolidating multi-query workflows into a unified reporting pipeline using CTEs and filtered aggregations.
- Cleaned and validated key dimension tables, resolving schema inconsistencies and improving data reliability for weekly stakeholder reports.
- Designed daily, weekly, and monthly dashboards tracking active lots, churn, and net-new growth, improving visibility for operations and finance teams.
- Collaborated with operations and finance stakeholders to define KPI logic and standardize metric definitions across teams.
- Translated business questions into structured data requirements, delivering clean, actionable reports that supported decision-making.

### DVC Math & Engineering Student Center, Tutor

Jan 2023 - May 2025

- Held tutoring hours where students could drop in for assistance with their math courses.
- Conducted one-on-one and group tutoring sessions, helping students ask questions, work through example problems, and identify areas for improvement on homework or tests.
- Fostered a collaborative learning environment, ensuring students gained confidence and improved their academic performance.

### CalTech Cvitanic Statistics Lab, Independent Researcher

Aug - Sep 2022

- Group leader for a team of three students researching probability theory and statistics with applications to optimization models over six weeks.
- Designed a Python program to simulate the Monty Hall game.
- Programmed the entire simulation and introduced the matplotlib module to represent data more intuitively in graph format.
- Counted 10,000 simulation results to summarize the probability of getting a reward between switching doors and not switching doors.

- Presented the program to Professor Jaksa Cvitanic in a final competition against seven other undergraduate groups, winning the competition and his recommendation letter.

### **Everest & Company Consulting, Statistics Analyst Intern**

Jul - Aug 2022

- Created an investment portfolio that can provide minimum risk for a desired level of expected return or provide maximum expected return at a desired level of risk.
- Calculated metrics for 27 stocks using five year historical data including monthly returns, annual returns, variance, and covariance matrix. Outputted monthly return graph for each stock.
- Engaged in data analyses of stocks using Python: data cleaning, NLTK work with financial statements, choosing and creating eight classic financial factors, calculating financial ratios, creating portfolios for four companies, and weighting companies within the portfolios.
- Calculated the portfolio returns and summarized which returns outweighed the SPY-500 indices' returns in the past ten years.

### **TedX at Vanke Meisha Academy (VMA), Communications Leader**

Oct 2021

- Wrote and published articles on the annual TEDxVMA event held at my high school including pre-event publicity and followup summaries on the official WeChat social media account.
- Asked questions to the speakers as a student representative during the event Q&A session.
- Interviewed the speakers one-on-one after the event.

### **Future Insight Club, President**

Sep 2020 - May 2023

- Lead students to explore possible career paths and connect with industry professionals through site visits and career lectures on campus.
- Organized an off-campus visit to the Shenzhen Institute of Science and Technology for 25 students, learning from staff scientists and touring the facility.
- Arranged a visit to BYD, a leading Chinese automotive brand, for a manufacturing tour and invited BYD professionals to share about their careers with high school students.

## **AWARDS**

### **High Honor Roll**

2021 Spring, 2021 Fall, 2022 Spring

### **Cross-Country Team, Athlete**

Sep 2019 - May 2023

- Trained in long distance running for three years, doing an extra five kilometers on the treadmill each week on top of team practice.
- Won bronze medal in the 2021 boys' 10km competition against other international schools.
- Won bronze medal in the 2020 boys' 5km competition against other international schools.

## **SKILLS**

Python, Java, C++, SQL, Matplotlib, Matlab, Excel
