

Devang Pant

La Jolla, CA • d3pant@ucsd.edu • 8582209704

Education

University of California, San Diego
B.S. Artificial Intelligence

La Jolla, CA
Expected Graduation: 2029

Scottish High International School
Science Stream

Gurugram, Haryana, India
May 2025

Projects

Quant Research — Triton Quantitative Trading
Factor-Based Momentum Strategy

San Diego, CA

- Scraped OHLC data for 20 ETFs across 9 sectors using yfinance.
- Engineered momentum factors and implemented monthly sector-aware allocation.
- Backtested and deployed strategy on QuantConnect; documented methodology in a research paper.

Foodify

San Diego, CA

LLM-Powered Food Recommender

- Built a recommendation system for UCSD campus and nearby eateries based on user cravings.
- Extracted menu data using Yelp Fusion API and Firecrawl API.
- Implemented an end-to-end RAG pipeline using Meta Llama 3.2 8B Instruct.
- github.com/Albrrr/Food-Recommender

Literature Review Tool

San Diego, CA

Automated Scientific Literature Reviews

- Retrieved relevant articles from PubMed for a given research query.
- Generated structured literature reviews using Gemini Embeddings and Gemini Flash APIs.
- github.com/d3pant/Literature_Review_Tool

UCSD SanD Hacks — Multi-Agent Systems Challenge

San Diego, CA

Cisco Explorer Badge + \$150 Award

- Implemented COFFEEAGNTCY, a multi-agent system developed by Cisco.
- Built and tested communication between agents in a simulated logistics system.
- Improved the Shipper Agent by adding real-world delays such as customs and processing time.

UCSD SMASH / NSF Machine Learning Hackathon

San Diego, CA

Coastal Flood Prediction

- Placed 3rd in category predicting coastal flooding events.
- Trained XGBoost models using data from 9 climate stations.
- Applied rolling 7-day training and 14-day prediction windows.
- Hyperparameter optimisation using GridSearchCV.
- Achieved 94% accuracy

Assistive Technology for People with Autism

Gurugram, India

Mobile App Development

- Developed an assistive communication app targeting vocabulary and reasoning skills.
- Built with Thinkable, user data stored in Firebase and images hosted on Cloudinary.

Leadership & Activities

SHISTECH

Gurugram, Haryana

Committee Member, Director, Advisor

- Organized a high-school technology symposium with 1200+ participants from 45+ schools.
- Raised and managed \$4000 in sponsorships; scaled participation from 400 to 1000+.

The CS72 Club

Gurugram, Haryana

Club President

- Taught Java and Python to a 50-member club and designed course structure.
- Led initiatives promoting competitive programming and technical participation.

Skills

- **Technical:** Python (NumPy, Pandas, Matplotlib, scikit-learn, TensorFlow, Keras), Java (OOP), HTML, CSS, React
- **Languages:** English, Hindi
