EDUCATION

University of California, San Diego | Expected graduation: June 2027

B.S. Cognitive Science spec. Machine Learning; Data Science Minor | GPA: 3.44/4.0 | La Jolla, CA

Relevant coursework: Programming / Data Structures / Algorithms for Data Science, Practice of Data Science, Cognitive NeuroEconomics, Statistical Methods, Intro. to Research Methods, Intro. to Statistical Analysis

PROJECTS & EXPERIENCE

COVID-19 Lexicon Data Analysis

Dec. 2025 | San Diego, CA

- Collaborated with a group to analyze timed COVID data alongside lexicon-based social media metrics
- Data cleaning & correlation analysis in Python (Numpy, Pandas, requests, datetime, statsmodels)
- Generated insights and visualizations regarding trends in public sentiment (seaborn, matplotlib, plotly)

Secretary - Yalla, Let's Talk @ UC San Diego

Nov. 2025 - Present | San Diego, CA

- Club centered around Middle Eastern and North African culture & the Arabic language
- Record meeting notes and keep club information organized; support leadership and increase engagement metrics

Promotions / Website Team member - Tokens Magazine

Oct. 2025 - Present | San Diego, CA

- A collaborative community of individuals who seek to foster creativity and celebrate lived experiences
- Promotions team - create graphics for social media, for community engagement and event planning
- Website team - designing and developing a website from scratch to showcase the magazine's events and issues

Instructional Assistant - Intro. to Research Methods (COGS 14A) @ UC San Diego

April 2025 - June 2025 | La Jolla, CA

- Collaborated with an instructional team to cultivate new creative and engaging ways of teaching students
- Lead instruction for a discussion section of about 60 students - including holding weekly in-person discussions / presentations, handled grading of assignments and exams of assigned class section, assisted other IAs

Behavioral Research Project: Cafe Culture

March 2025

- Designed and executed observational study analyzing consumer behavior in public spaces
- Collected and coded real-time data on task-engagement, social interaction, and technology use
- Conducted statistical analysis and synthesized findings into a formal research paper with actionable insights regarding age demographics and task-socialization relationships

Musician Data Analysis

Oct. 2023 - Nov. 2023

- Cleaned and analyzed lyrics and audio datasets of Taylor Swift using Python (Pandas, NumPy, Matplotlib)
- Built interactive recommendation tools using Euclidean distance metrics and TF-IDF for lyric-based insights
- Visualized trends to highlight song similarities and patterns

SKILLS & INTERESTS

- Skills: Python, R, SQL, HTML, CSS, Java, Data Visualization, Teamwork, Problem-Solving, Adaptability
- Interests: Baking, Women's Lacrosse, Linguistics
